DIRECTIONS FOR USE

RESTRICTED USE PESTICIDE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

CORN (Including Corn Grown for Seed)

EARLY PLANT BANDING FOLLOWED BY AERIAL APPLICATION:

Apply **COMITE® II** at 18 fl oz/acre in 10 gal/acre directed spray to the lower stalk of the plant (14" to 20") during mite infestation in early season period. A second application of **COMITE II** at 36 fl oz/acre without or combined with other control measures by air application in a minimum of 5 gallons of water may be made as necessary for mid or late season mite control. Complete coverage of both upper and lower leaf surfaces is necessary for effective control. Do not exceed 54 fl oz **COMITE II** per season.

Observe an REI of 13 days.

Do not make more than two applications of **COMITE II** per season.

The grazing or cutting for silage within 30 days after treatment is prohibited.

Do not apply **COMITE II** within 30 days of harvest.

Follow all applicable directions, restrictions, and precautions on the EPA registered label.

This label must be in the possession of the user at the time of the pesticide application.
