

## Section 2(ee) Recommendation

Date: April 12, 2022

Product: Orondis® Gold 200 (EPA Reg. No. 100-1571)  
+  
Orondis Gold® B (EPA Reg. No. 100-1202)

Use: **Recommendation for a Tank Mix of Orondis Gold 200 with Orondis Gold B for Control of Black Shank on Tobacco**

State: GA, IN, KY, NC, OH, SC, TN, VA

### Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- Use of this product according to this bulletin has not been reviewed or endorsed by the Office of the Indiana State Chemist.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

For control of black shank via transplant water, tank mix Orondis Gold 200 at 3.4 – 4.8 fl oz/A plus Orondis Gold B at 4.0 – 8.0 fl oz/A. Apply in 200 gallons of transplant water per acre following precautions described in product labels.

### OR

For application within one week prior to planting (soil spray broadcast application), tank mix Orondis Gold 200 at 4.8 fl oz/A plus Orondis Gold B at 1.0-3.0 pt/A. Apply as a broadcast application to the soil and incorporate in the top 2-4 inches of soil.

For application at first cultivation or layby, tank mix Orondis Gold 200 at 4.8 fl oz/A plus Orondis Gold B at 8.0 fl oz/A and apply as a soil-directed or banded spray.

Shake Orondis Gold 200 container well before using. Follow all directions for use, restrictions and precautions given on the Orondis Gold 200 and Orondis Gold B labels.
