Section 2(ee) Recommendation

Date: June 20, 2017

Product: Besiege® Insecticide
EPA Reg. No. 100-1402

Use: Addition of Brown Marmorated Stink Bug as Pest Controlled to Pome Fruit
Section of the Besiege® Insecticide Label

State: ID, WA

Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

Besiege Insecticide applied as a foliar spray will provide control of brown marmorated stink bug at the rates indicated in the following table. The user must refer to the federally approved label for Besiege Insecticide and read and follow all directions for use, restrictions, and precautions.

Crop Group Section of the Federal Label	Rate/Acre Per Application
Pome Fruit	10.0 – 12.0 fl oz/A

Pollinator Precautions

- **Besiege Insecticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds.** Do not apply Besiege Insecticide or allow it to drift to blooming crops or weeds while bees are foraging in/or adjacent to the treated area.
