

Coastal AgroBusiness, Inc.

Product Label

*Deposition Aid
Drift Management Agent*

Principal Functioning Agents:

Modified Vegetable Oil, Amine Salts of	
Organic Acids and Organic Acid	100%
Total	100%

All ingredients are exempt from tolerance as specified in 40 CFR 180.1001

CAUTION

KEEP OUT OF REACH OF CHILDREN

Read the entire label for additional precautionary statements.

Manufactured By:
Coastal AgroBusiness, Inc.
Greenville, North Carolina

GENERAL INFORMATION

DRift-X DRT is specially formulated as a deposition and drift management agent that reduces the number of spray droplet fines less than 100 microns and increases the VMD (Volume Median Diameter) of spray droplets. **DRift-X DRT** generates a more uniform droplet size spectrum, resulting in enhanced on-target deposition and coverage of the spray. **DRift-X DRT** is for use with most fungicides, herbicides, and insecticides that are labeled for use in agriculture, forestry, golf courses, industrial, non-crop, turf, and ornamental. **DRift-X DRT** does not replace the need for additional adjuvants/surfactants in the spray tank.

PRECAUTIONARY STATEMENTS / HAZARDS TO HUMANS

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed or inhaled. Can cause skin, mucous membrane, and eye irritation. Avoid contact with eyes, skin, or clothing. Avoid breathing vapors or spray mists. Use only with adequate ventilation. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse. Do not apply this product in a manner as to directly or through drift expose workers or other persons. Always read and follow product labeling.

FIRST AID

If swallowed: Call a physician immediately. Only induce vomiting at the instruction of a physician. Never give anything by mouth to an unconscious person.

If in eyes: Flush eyes with copious amounts of clean water for at least 15 minutes. Remove contacts if present, and easy to do. Do not let the victim rub their eye. Get medical attention.

If on skin: Remove contaminated clothing and wash skin with soap and water. If irritation develops, get medical attention.

If inhaled: Remove the person from the area of exposure. Give artificial respiration if necessary. If breathing is difficult, give oxygen if a qualified operator is available. Seek medical attention.

NOTE: If contact is made with a spray solution containing pesticides, follow the “First Aid” statements on the pesticide label.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Store in original container only. Keep container closed when not in use. Keep from freezing. If damaged or leaking, soak up with absorbent material and place in a suitable container for disposal. Transfer remaining product to a suitable container for storage and label.

Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water by runoff from equipment wash waters or spray materials. Wastes resulting from this product may be disposed of on-site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

AGRICULTURAL USE REQUIREMENTS AND USER SAFETY RECOMMENDATIONS

When used in conjunction with pesticides, consult the pesticide manufacturer's label for worker protection recommendations. Use of waterproof gloves and protective eyewear is recommended when handling this product.

DIRECTIONS FOR USE

Use 4 – 6 fluid ounces of **DRift-X DRT** per acre.

DRift-X DRT must be added to the spray tank last.

When water conditioning products are used, always add the water conditioning product as the first product in the spray mixture. Add any additional adjuvants to the spray tank before adding **DRift-X DRT**. Proper nozzle selection and operation (pressure and spray angle) combined with good operator evaluation and decision making on wind direction, temperature inversions, application speed, and susceptible crops in the area, combined with **DRift-X DRT**, are necessary for maximum drift reduction potential. Always use good operating procedures to minimize drift potential.

Actual use rate may be increased or decreased within the specified rate range to achieve optimum results.

WARRANTY

ALWAYS READ AND FOLLOW LABEL DIRECTIONS

SHAKE WELL BEFORE USE

KEEP FROM FREEZING

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions contained on this label under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage to plants, crops, and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
