

CONTROL™

DRIFT MITIGATION AND DEPOSITION ADJUVANT

INGREDIENTS:

Polyvinyl polymer (polyacrylamide)	37%
Formulation aids and inerts	63%
TOTAL	100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001

NET CONTENT: 1 Quart

GENERAL INFORMATION

CONTROL™ spray drift mitigation and deposition aid is a very effective, easy-to-use adjuvant for improving on-target spray deposition, retention and lowering evaporation. **CONTROL™** reduces drift and improves efficacy at very low rates when applied by ground or air. **CONTROL™** mixes well with water and is compatible with most pesticides and other agricultural products.

USE DIRECTIONS

1. Factors that influence the optimum rate of **CONTROL™** include spray mixture components, pressure, nozzle selection, application method, speed, pressure, nozzle type, and proximity to sensitive non-target areas. Use the higher recommended rates when applying at high application speeds and when mixing with chemicals that reduce spray droplet size.
2. If more drift reduction is needed, increase the rate of **CONTROL™** in 1 oz/100 gal increments until the desired effect is obtained. Reduce the rate if the spray pattern is distorted.
3. Do not use **CONTROL™** with Monsanto MAX® glyphosate formulations unless combined with 8.5 to 17 lb/100 gal of ammonium sulfate (AMS) or 1 qt/100 gal GarrCo **ASSIST™** compatibility agent. **CONTROL WM™** is compatible with Monsanto MAX® glyphosate formulations without AMS or **ASSIST™**.
4. May use in aquatic applications at labeled rates.

Use Rate Guidelines	
Application	Rate oz/100 gal
Ground Depending on nozzle, setup, and spray mixture Dicamba and 2,4-D mixtures	1 to 6 3 or higher
Airplane Depending on nozzle, setup, and spray mixture	1 to 8
Helicopter Depending on nozzle, setup, and spray mixture	0.5 to 4

Seller makes no warranty of fitness or merchantability. Buyer agrees that seller's maximum liability shall not exceed the purchase price of this product.

PRECAUTIONS

Always use best spray management practices and follow pesticide label directions. **CONTROL™** by itself will not totally eliminate the potential for spray drift. Wear appropriate protection to avoid eye and skin contact.

STORAGE AND DISPOSAL

Store above 32°F and prevent freezing. Do not reuse empty container. Dispose of container in accordance with federal, state, or local regulations.

WARNING: Harmful if swallowed. Causes eye irritation.

PRECAUTIONARY STATEMENTS: Do not eat, drink or smoke when using this product.

If swallowed: Call a POISON CENTER or doctor/physician if you feel unwell.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do - continue rinsing.

FIRST AID:

Eye contact: Check for and remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

Ingestion: Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Read Safety Data Sheet before using this product.
