WHAT TO DO IN CASE OF CONTACT
If Ingested: Give large amounts of water or milk, if conscious. Contact a physician immediately.
Eye Contact: Flush eyes with clean water for 15 minutes. Seek medical attention immediately.
Skin Contact: Remove contaminated clothing and wash skin with soap and water. Seek medical attention if irritation develops or persists.
If Inhaled: Move to fresh air and seek medical attention if irritation develops or persists.
 If there is contact made with spray solution containing pesticides and/or spray adjuvants, follow the "Statement of Practical Treatment" on the product labeling.

GENERAL INFORMATION
 N-Jet 22-0-0 .5%B is a liquid foliar nitrogen designed for application on cotton and other crops requiring supplemental N during the growing season. A portion of the nitrogen is in a slow release form providing more efficient nitrogen utilization. In addition, it contains boron often deficient in certain crops suffering from disease pressure or drought conditions.
 N-Jet 22-0-0 .5%B is recommended as a carrier for pesticides. The slow release nitrogen prolongs the wetting of leaf surfaces for greater penetration and less loss from crystallizing on leaf surfaces as with liquid urea products.

DIRECTIONS FOR USE
 This product may be applied by ground or aerial application. Use sufficient water for thorough and uniform coverage of foliage or soil. Foliar application is recommended when fast correction is desired. For best results use a non-ionic surfactant. Mixing Instructions: Always check compatibility before mixing. Use only the following sequence: 1. Water; 2. This Product; 3. Pesticides.

RECOMMENDED RATES
 Rates and timing of applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis. Local climatic conditions, infestations and other factors affect the performance of any pesticide or nutritional spray. Therefore, consult your local chemical company representative or agricultural extension agent for specific use information in your area

This product may be corrosive to aluminum, mild steel and brass. Store in HDPE, fiberglass or stainless steel containers. Use only stainless steel, P.V.C., or polypropylene fittings.

Storage: Store in cool place in original container in a locked storage area inaccessible to children, pets, domestic animals or wildlife.
Container Disposal: Do not reuse empty containers. Triple rinse (or equivalent) then offer for recycling or disposal by procedures approved by state or local authorities.
