## PRODUCT INFORMATION

Organic BioLink® Nitrogen Fertilizer is designed to correct nitrogen deficiencies in plants. A plant supplied with adequate nitrogen grows rapidly and produces large amounts of succulent, green foliage.

**Organic BioLink® Nitrogen Fertilizer** is 100% water-soluble for improved availability and uptake by the plant.

Organic BioLink® Nitrogen Fertilizer contains amino acids derived from the soy protein. The amino acids in the product facilitate the nutrient uptake by the plant, which leads to improved plant vigor.

Organic BioLink® Nitrogen Fertilizer is suitable for all plant types as a foliar or soil fertilizer. For maximum results, Organic BioLink® Nitrogen Fertilizer should be used as part of a complete crop or turf management program.
