

Safety Data Sheet

CREATED 5/30/2015 REVISED 03/02/2017 VERSION 4.01

1. PRODUCT AND COMPANY INFORMATION

Product Identifier: CHEM SOL 13-2-13
Recommended uses: Fertilizer end-use

Dry fertilizer for mixing with water for foliar and soil applications.

Hazard statements:

Suspected of damaging fertility or the unborn child

Harmful to aquatic life with long lasting effects

Causes serious eye damage

H361

H318

H412

Restrictions on uses: None

Manufacturer: Plant Foods, Inc.

PO Box 1089

Vero Beach, FL 32961

Company Telephone/Fax (772)567-5741 (772)770-0473 **Emergency Telephone Number** (800)424-9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

Classification of the mixture

Reproductive toxicity 2

Serious eye irritation/irritation 1

Aquatic Hazard/3

Physical Hazards

None

Label elements

Hazard Pictograms

Signal word

Danger

Precautionary Statements:

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P273 Avoid release to the environment

P280 Wear protective gloves/protective clothing/ eye protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

For Chemical Emergencies Call CHEMTREC - Day or Night - at 800-424-9300.

and easy to do. Continue rinsing.

P308+P313 If exposed or concerned: Get medical advice/attention.
P310 Immediately call a POISON CENTER or doctor/physician.

P405 Store locked up.

P501 Dispose of contents/container according to local/state/federal regulations.

Other Hazards

None Known

3. Composition/Information on Ingredients

This product is to be considered a mixture/preparation

Substance name	CAS#	Concentration
Potassium nitrate	7757-79-1	25%-35%
Copper EDTA	14025-15-1	<1%
Zinc EDTA	14025-21-9	<1%
Calcium Nitrate	13477-34-4	30%-35%
Boric Acid	100043-35-3	<.5%

^{**}Ingredients not specifically listed are non-hazardous and considered to be confidential business information under 29CFR §1910.1200

4. FIRST AID MEASURES

Description of First Aid Measures

General Information:

In case of persisting adverse effects consult a physician.

Never give anything by mouth to an unconscious person or a person with cramps.

In case of inhalation

Remove to fresh air and keep at rest in a position comfortable for breathing

Get medical attention for any breathing difficulty.

In case of skin contact

Wash with plenty of soap and water

If skin irritation occurs: Get medical advice/attention.

In case of eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

In case of ingestion

Rinse mouth and drink plenty of water. Do not induce vomiting.

Call a POISON CENTER or doctor/physical if you feel unwell.

Most important symptoms and effects, both acute and delayed

The following symptoms may occur:

Delayed lung effects after short term exposure to thermal degradation products.

In case of skin contact May cause redness or irritation

In case of eye contact May cause redness or irritation

In case of ingestion Ingestion of large amounts may cause: gastrointestinal disturbances

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media:

Suitable extinguishing media: Use any suitable mean for extinguishing the surrounding fire. Unsuitable material:

None, but attention should be paid to compatibility with chemicals

surrounding.

Specific hazards arising from the chemical

Thermal decomposition can lead to the escape of toxic/corrosive gases and vapors.

Thermal decomposition products: (Nox), nitrites, phosphorous oxides, ammonia and metallic oxidies.

Protective equipment and precautions for firefighters

Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (self contained breathing apparatus (SCBA)

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Provide adequate ventilation. Wear personal protection equipment (Section 8).

Environmental precautions

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal and recovery.

Unsuitable material for containment/taking up: None specified

Other Information

None

7. HANDLING AND STORAGE

Precautions for Safe Handling

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Avoid generation of dust.

Provide adequate ventilation.

Wear personal protective equipment.

Wash hands thoroughly after handling.

Do not eat, drink, or smoke when using this product.

Conditions for safe storage, including any incompatibilities

Keep/store only in original container

Store in well-ventilated place

Keep container tightly closed

Store locked up.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Control Parameters:

		ACGIH Threshold		OSHA PEL		NIOSH REL		
Chemical Identity:	CAS#	TWA	STEL		TWA	STEL	TWA	STEL
Potassium Nitrate	7757-79-1	NDA	NDA		NDA	NDA	NDA	NDA

Boric Acid	10043-35-3	2 mg/m ³	6 mg/m ³	NDA	NDA	NDA	NDA
Calcium Nitrate	13477-34-4	NDA	NDA	NDA	NDA	NDA	NDA
Copper EDTA	14025-15-1	NDA	NDA	NDA	NDA	NDA	NDA
Zinc EDTA	14025-21-9	NDA	NDA	NDA	NDA	NDA	NDA

Engineering controls

Use exhaust ventilation to keep airborne concentrations below exposure limits.

Personal Protective Equipment

Eye/face protection Chemical goggles required all the time

Skin protection Nitrile rubber gloves, over 0.11 mm thickness, > 480 min breakthrough time,

recommended. Overall

Respiratory Protection Wear respiratory protection, where airborne concentrations are expected to exceed

exposure limits.

General Hygiene Considerations

Avoid contact with eyes and skin. Wash hands thoroughly after handling. Do not eat, drink or smoke when using

the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance solid, granular

Color blue Odor odorless

Odor Threshold No Data Available No Data Available pH value No Data Available Melting point/freezing range No Data Available Boiling temperature/ range Flash point No Data Available Vaporization rate No Data Available Evaporation rate No Data Available Flammable solids Not flammable Explosion limits (LEL, UEL) No Data Available No Data Available Vapour pressure Vapour density No Data Available **Relative Density** No Data Available

Solubility >100 g/L at 20° C/68°F (water)

Partition coefficient n-octanol Not applicable
Auto Ignition temperature Not applicable
Decomposition temperature No Data Available
Viscosity No Data Available
Explosive properties Not Explosive
Oxidizing properties Not Oxidizer

Other Information None

10. STABILITY AND REACTIVITY

Reactivity

No hazardous reaction when handled and stored according to provisions.

Chemical stability

Stable under normal storage and temperature conditions.

Possibility of hazardous reactions

No Data Available

Conditions to avoid

No Data Available

Incompatible materials

No Data Available

Hazardous decomposition products

Thermal decomposition products: Nitrous oxides (Nox), nitrites, phosphorus oxides, ammonia and metallic

oxides.

11. TOXICOLOGICAL INFORMATION

The following information mostly refers to the major component of the product

Likely routes of exposure (inhalation, ingestion, skin and eye contact)

Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

Symptoms related to the physical, chemical, and toxicological characteristics

May be irritant to the respiratory tract. May cause redness or irritation to the skin and eyes. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure or thermal degradation products.

Information on toxicological effects from short and long term exposure

There is no data available for the mixture itself.

Acute toxicity

Acute oral toxicity NDA

Acute Estimate for the mixture >2000 mg/kg bw Potassium nitrate >2000 mg/kg bw Boric Acid 3765 mg/kg bw

Assessment/classification: Based on available data for the ingredients of the mixture, the classification

criteria are not met.

Skin corrosion/irritation:

May cause skin irritation

Serious eye damage/eye irritation:

May cause eye irritation including redness and inflammation.

Respiratory or skin sensitization:

No data available

Carcinogenicity:

No data available

Germ cell mutagenicity

The product does not contain ingredients classified as germ cell mutagens.

Reproductive toxicity

Boric acid has been shown to adversely affect male reproduction in laboratory animals, however, male reproductive effects attributable to boron have not been demonstrated in studies of highly exposed

workers.

Based on the available data for ingredients of the mixture, this product is classified and labelled as Presumed human reproductive toxicant, Category 1B, in accordance with Appendix A to 29CRF section 1910-1200.

Specific target organ toxicity - single or repeated exposure:

No relevant effect have been observed.

Aspiration hazard

Physicochemical data and toxicological information does not indicate and aspiration hazard.

12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product.

Ecotoxicity

Aquatic Toxicity

Potassium	nitrate		
	96-h LC50	1378 mg/L	poecilia reticulata
	24-h EC50	490 mg/L	Daphnia magna
	10d EC50	>1700 mg/L	Several algae species
Boric acid			
	96-h LC50	74-725 mg B/L	Fish
	48-h EC50	45-1376 mg B/L	Aquatic invertebrates
	72-h EC50	40 mg B/L	Algae (pseudokirchneriella subcapitata)

Persistence and degradability

The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

Mobility in soil

The components of this mixture have a low potential for absorption. Portion not taken up by plants, can leach to groundwater.

Other adverse effects

Excess nitrate leaching may enrich waters leading to eutrophication.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with all local, state, and federal regulations. This product is not listed as a dangerous waste in the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste disposal method.

Shipping Information

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall Plant Foods, Inc. be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if Plant Foods, Inc. has been advised of the possibility of such damages.

OSHA STANDARD 29 CRF 1910.1200 requires that information be provided to employees regarding the hazards of chemicals by means of a Hazard Communication Program including training, Safety Data Sheets, and access to written records. We request that you, and it is your legal duty, make all information in this Safety Data Sheet available to your employees.
