DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This 24(c) registration is for the 2019 growing season only.
- This label must be in the possession of the user at the time of application.
- See the Product Information, Application Directions, and Application Equipment sections of the Tavium Plus VaporGrip Technology product label for important use information. In the event that there are any inconsistencies with the directions for use between this 24(c) label and any other labeling for this product, follow the directions for use on this 24(c) label.

RESTRICTIONS/LIMITATIONS

- DO NOT apply this product after July 15, 2019.
 - DO NOT apply this product when the wind is blowing toward adjacent residential areas.
 - Before making an application of this product, the applicator must consult the FieldWatch sensitive crop registry and comply with all associated record keeping label requirements.
 - Maintain the label-specified downwind buffer between the last treated row and the nearest downfield edge of any Illinois Nature Preserves Commission Site.
 - It is best to apply when the wind is blowing away from sensitive areas which include but are not limited to bodies of water and nonresidential, uncultivated areas that may harbor sensitive plant species.
