CAUTION

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, and precautions on the EPA registered label for Roundup PowerMax Herbicide (EPA Reg. No. 524-549) and this label.
- In case of an emergency involving this product, call collect, day or night, 314-694-4000.

See the "PRODUCT INFORMATION" and "MIXING" sections of the Roundup PowerMAX Herbicide product label for important use information.

TYPES OF APPLICATION: Preharvest

USE INSTRUCTIONS: Apply 22 to 44 fluid ounces of this product in 5 or more gallons of water per acre. Application should be made after the last irrigation and before removing the top growth of the crop. Ensure the garlic plant tops have fully dried down and there is no green tissue present.

PRECAUTIONS: Application of this product over the top of garlic or onion that still has green tissue can lead to deterioration of crop quality.

RESTRICTIONS: Application must be made using ground application equipment only. Do not apply this product through any irrigation system. Do not apply to garlic or onion grown for seed. Pre-harvest Interval – 30 days. Restricted Entry Interval (REI) – 4 hours.

Read the "Limit of Warranty and Liability" on the product label for Roundup PowerMAX Herbicide before using this product. Those terms apply to this labeling and if those terms are not acceptable, return the product unopened at once.
