**FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF FLORIDA**

**CARBARYL 4L**  
EPA REG NO. 34704-447

**For control of Asian Citrus Psyllid in Citrus**

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

<b>Crop</b>	<b>Pest</b>	<b>Amount of Carbaryl 4L per acre</b>	<b>Specific Directions</b>
Citrus (grapefruit, lemons, limes, oranges, tangelos, tangerines, citrus citron, kumquat, and hybrids)	Asian Citrus psyllid ( <i>Diaphorina citri</i> )	1.5 - 3.0 qts/A	Repeat applications as necessary up to a total of 8 times but not more often than once every 14 days. Use the lower rate on light to moderate infestations, young plants and early instars, and use the higher rate on heavy infestations, mature plants, advanced instars and adults. Thorough and uniform spray coverage is essential for effective control.

**Use Restrictions and Precautions:**

- Do not apply within 5 days of harvest.
- Do not apply more than a total of 20 quarts per acre per crop.
- For ground application, apply in sufficient volume for adequate coverage.
- For aerial application, use at least 10 gallons of spray mixture per acre for adequate distribution.
- Observe Bee Caution.
