FIFRA

Section 2(ee) Recommendation

Date: June 13, 2018

Product: Agri-Mek® SC Miticide/Insecticide
EPA Reg. No. 100-1351

Use: Suppression of spider mites in bulb onions

State: Idaho

Directions for Use

- **It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**
- **The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.**
- **The user should have this recommendation in its possession at the time of use.**
- **This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.**

Agri-Mek SC Miticide/Insecticide will provide suppression of spider mites when applied at 3.5 fl. oz/A. It is recommended to apply Agri-Mek SC when spider mites first appear.

To avoid illegal residues Agri-Mek SC must be mixed with a non-ionic activator type wetting, spreading and/or penetrating spray adjuvant. Do not use binder sticker type adjuvants.

Do not apply in less than 20 gallons of water/A with ground application equipment. Do not apply in less than 5 gallons of water/A with aircraft. Under conditions such as high pest populations, dense foliage, or adverse application conditions (such as high temperatures), use a greater volume of water to ensure adequate coverage.

For best control of spider mites, apply with ground application equipment. With aerial application, spray coverage and the resulting level and duration of control of mites may be less than with ground application.
