PRODUCT INFORMATION

BRONC® MAX E.D.T. water conditioning and deposition agent is specially formulated to be used with many postemergence type herbicides, which perform best when mixed with ammonium sulfate. In addition, BRONC MAX E.D.T. increases the VMD (Volume Mean Diameter) of the spray droplets and the deposition on the target plant.

BRONC MAX E.D.T. is filtered through a special process to remove impurities and other contaminants generally associated with dry or other liquid ammonium sulfate products. This lack of sedimentation reduces nozzle plugging, wear and corrosion of equipment.

BRONC MAX E.D.T. contains humectants that retard crystal formation of active ingredients, allowing for better absorption into leaf surfaces.

USE RATES

WATER CONDITIONING: Use 1-8 pints per 100 gallons of spray mix as a general water conditioning agent for hard water sequestering.

WATER CONDITIONING PLUS DEPOSITION

GROUND: Use 2-8 pints per 100 gallons of spray mix (0.25-1% v/v). For best deposition, use 4-8 pints per 100 gallons of spray mix (0.5-1% v/v).

AERIAL: Use 2-4 pints per 100 gallons of spray mix (0.25-0.50% v/v).

NOTE: BRONC MAX E.D.T. is a water conditioning and deposition agent. It does not replace the need for an adjuvant or nonionic surfactant. If the spray material label recommends it, then additional adjuvant or nonionic surfactant should be added.

All ingredients in this product are exempt from the requirements of a tolerance.

USE RESTRICTIONS

DO NOT ALLOW THIS PRODUCT TO FREEZE.

NOT FOR AQUATIC USE.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly sealed. Store in closed storage areas.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixtures or rinsate is a violation of federal law. Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate. Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. The ACRC (Agricultural Container Recycling Council) operates a national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org.
