

FYLLOTON™

NITROGEN FERTILIZER

6-0-0

GUARANTEED ANALYSIS

Total Nitrogen (N) 6%
6.0% Water Soluble Nitrogen

Derived from: Yeast Extract

SHAKE WELL BEFORE USE

KEEP OUT OF REACH OF CHILDREN

CAUTION

While this product is not anticipated to be hazardous for use, good industrial hygiene practices should be used in handling the product. Wash hands thoroughly after handling and take appropriate precautions to avoid eye and skin contact with the product. Keep away from flames in a cool, well-ventilated place. Avoid prolonged exposure to low temperatures. Check container periodically. In case of accidental spill contain the leak, avoid water contamination and, whenever necessary, dispose according to federal, state and local laws and regulations.

GENERAL INFORMATION

Fylloton is designed to promote plant growth and development by providing a natural source of nitrogen.

DIRECTIONS FOR USE

Foliar application:

- **Fruit trees, wine and table grapes:** Apply 1.7 – 1.9 pints/acre every 7 to 10 days for a total of 3 to 4 applications during the crop cycle.
- **Vegetable and row crops:** Apply 1.3 - 1.9 pints/acre every 7 to 10 days for a total of 3 to 4 applications during the crop cycle.
- **Cereal crops:** Apply 2.6 – 4.3 pints/acre 1 to 2 times during the crop cycle.
- **Flower and ornamental crops:** Apply 0.218 oz/gallon every 7 to 10 days for a total of 2 to 3 applications during the crop cycle.

Dosages are calculated for normal water distribution volumes.

Fertigation:

The following rates are intended for the entire crop cycle and should be applied at a consistent application interval.

- **Fruit trees, wine and table grape, vegetable and industrial crops:** 1 – 2.1 gallons per acre
- **Flower and ornamental crops:** 3.14 – 6.3 oz/1,000 ft²

Please consult your regional Winfield agronomist for additional information on application rates, crops not listed and use rates. The product can be mixed with all common formulations, except with products with alkaline reaction, products based on Copper and Sulfur, mineral oils and emulsions. A simple mixture test (jar test) to check compatibility is recommended.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
