WEEDAR 64®
Broadleaf Herbicide

For Control of Tall Weeds in
Cranberry Bogs.

EPA Reg. No. 71368-1
EPA SLN No. MA-020002

PRODUCT BULLETIN

24(c) Supplemental Label

DANGER PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Follow all applicable directions, restrictions and precautions on the EPA registered label. This labeling must be in the possession of the user at the time of pesticide application. Do not apply this product through any type of irrigation system.

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF MASSACHUSETTS

Weedar 64 is a State Restricted Use Pesticide and is to be distributed only by licensed pesticide dealers. Only certified applicators or persons under the direct supervision of a certified applicator may use or apply Weedar 64

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

PHI: Allow at least 30 days between application and harvest.

To be used in connection with **WEEDAR® 64** Broadleaf Herbicide for control of the following weeds:

| | |
|-------------------|----------------------------------|
| Asters | (Aster spp.) |
| Dewberries | (Rubus spp.) |
| Goldenrod | (Solidago spp. Euthamia spp.) |
| Hardhack | (Spiraea tomentosa L.) |
| Leatherleaf | (Chamaedaphne calyculata L.) |
| Loosestrife | (Lysimachia terrestris L.B.S.P.) |
| Ragweed | (Ambrosia artemisiifolia L.) |
| Red maple | (Acer rubrum L.) |
| Saw briar | (Smilax spp.) |
| St. Johnswort | (Hypericum spp.) |
| Sweetgum | (Liquidambar styraciflua) |
| Sweet pepper bush | (Clethra alnifolia L.) |
| Three square | (Scirpus americanus) |

Best results when used in late June and July.

Applications should be made with a wiper applicator. For example, use a hand-held applicator, such as a wooden frame or similar device, shaped like a hockey stick, with the lower horizontal portion wrapped with several thicknesses of Turkish toweling (or other suitable material). Apply by soaking the toweling in a solution containing one part WEEDAR® 64 herbicide to two parts water. Then with swabbed portion of the stick horizontal, wipe the weeds with small quantities of the herbicide onto tall weeds above the crop canopy. **Do not allow pesticide to drip or touch cranberry vines.** Apply only once per year.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear: coveralls over short-sleeved shirt and short pants, waterproof gloves, chemical-resistant footwear plus socks, chemical-resistant headgear for overhead exposure and protective eye wear. A chemical-resistant apron should also be worn when cleaning equipment, mixing or loading. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d) (4-6)], the handler PPE may be reduced or modified as specified in the WPS.

For containers over 1 gallon but less than 5 gallons, mixers and loaders who do not use a mechanical system (probe and pump) to transfer the contents of this container must wear coveralls or a chemical-resistant apron in addition to the other required PPE. For containers of 5 gallons or more, a mechanical transfer system (pump and probe) must be used for transferring the contents of the container. If the contents of a non-refillable pesticide containers are emptied, the probe must be rinsed before removal. If the mechanical system is used in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d) (4-6)], the handler PPE may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specified instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow entry into treated areas during the restricted entry interval (REI) of 48 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants, soil or water is: coveralls over shore-sleeved shirt and short pants, waterproof gloves, chemical-resistant footwear plus socks, chemical-resistant headgear for overhead exposure and protective eye wear.
