Application on Bearing and Non-bearing
Citrus**

EPA Reg. No. 264-516

PRODUCT BULLETIN

For Use and Distribution Only in the State of Florida

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

DISEASE	APPLICATION METHOD	RATE lbs product	APPLICATION PROGRAM
Phytophthora Foot & Root Rot (<i>Phytophthora</i> spp.)	Soil application via tractor-mounted boom-type sprayer	2.5-5.0/Acre	Apply to soil when conditions favor disease development. (If you are unsure about whether these conditions exist, check with your Cooperative Extension Service. Soil applications should be followed by a standard irrigation to move ALIETTE® into the plant root zone. Do not apply in areas with high weed populations.
