

Report Date 06-Jun-17

Page 1 of 4

## 1. Identification

Product Name: ELE-MAX FOLIAR PHOSPHITE 4-30-20 (AZ & CA)

Synonyms : None

Product Use : Foliar fertilizer

Manufacturer/Supplier: Helena Chemical Company

Address: 225 Schilling Blvd. Collierville, TN 38017

**General Information**: 901-761-0050

**Transportation Emergency Number**: CHEMTREC:800-424-9300

## 2. Hazard Identification

Signal Word: Warning

Skin Irritation: Causes skin irritation.

Eye Irritation: Causes serious eye irritation.

Acute Toxicity Oral : Excessive ingestion may cause irritation of the digestive tract.

Acute Toxicity Dermal: No hazard expected.

Hazard Categories: Oral/Dermal/Inhalation Toxicity - 5/5/5; Eye Irritation - 2A; Skin Irritation -

2

Hazard Statement : May be harmful if swallowed

May be harmful in contact with skin Causes serious eye irritation

Causes serious eye irritation

May be harmful if inhaled

## 3. Composition / Information on Ingredients

Component CAS Number Weight %
Soluble Potash (K2O): 20.00%

Blend of plant nutrients derived from urea, potassium hydroxide and phosphorus acid.

GUARANTEED ANALYSIS:
Total Nitrogen (N): 4.00%
4.00% Urea Nitrogen

Total Phosphoric Acid (P2O5): 30.00%

#### 4. First Aid Measures

**Eye**: Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing

eye. Call a poison control center or doctor for further treatment advice. **Skin**: Take off contaminated clothing. Rinse skin immediately with plenty of water for

15 to 20 minutes. Call a poison control center or doctor for treatment advice. **Inhalation**: Move person to fresh air. If person is not breathing, call 911 or an ambulance,

then give artificial respiration, preferably mouth-to-mouth, if possible. Call a

poison control center or doctor for further treatment advice.

**Ingestion**: Call a poison control center or doctor immediately for treatment advice. Rinse

mouth with water. Do not induce vomiting. Do not give anything by mouth if

unconscious.

Report 06-Jun-17 Date

Page 2 of 4

**Attention and Special Treatment** Needed

Indication of Immediate Medical : Treatment should be directed toward control of the symptoms.

#### **Fire Fighting Measures**

Extinguishing Media: Non-combustible liquid. Use extinguishing media suitable for underlying cause

of fire.

Specific Hazards Arising from the : Product may produce phosphoric pentoxide under fire conditions. May

produce hydrogen gas if in contact with certain metals, such as mild steel, Chemical

aluminum alloy, brass, tin and galvanized metals.

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective equipment. Use

water spray to keep fire-exposed containers cool.

#### **Accidental Release Measures**

Personal Precautions: Keep unprotected and unnecessary personnel out of spill area.

Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and

footwear. If mist is present, use a NIOSH-approved mist-type canister respirator.

Eyewash and emergency shower shold be available in work area.

: Dike spilled product to prevent spreading. Do not contaminate water supplies, **Emergency Procedures** 

lakes, streams, ponds or drains.

Methods and Materials for : Contain and collect spilled product. Reuse material if uncontaminated. If **Containment and Cleanup** contaminated, absorb material with an absorbent, such as clay or sand, and

place in plastic containers for proper disposal.

## **Handling and Storage**

Precautions for Safe Handling : Keep locked up and out of reach of children. Do not contaminate water, food or

feed by storage, handling or disposal. Keep container tightly closed. Do not

allow water to be introduced into the contents of the container.

Conditions for Safe Storage : Store in original container only. Protect from frost. Store at temperatures above

32 Degrees F.

## **Exposure Controls / Personal Protection**

**TLV/PEL**: No TLV or PEL available for mixture.

Appropriate Engineering Controls: Local exhaust is normally sufficient.

Personal Protective Equipment : Splashproof goggles or face shield, impervious gloves, impervious apron and

footwear. If mist is present, use a NIOSH-approved mist-type canister respirator.

Eyewash and emergency shower shold be available in work area.

#### **Physical and Chemical Properties**

Odor/Appearance : Clear colorless liquid; low odor.

Flash Point, <sup>0</sup>F : Non-combustible Boiling Point, <sup>0</sup>F : 212 Degrees F.

Melting Point(Freezing point), °C : < -15 Degrees C. Vapor Pressure, mm Hg @ 20 °C : Not established Vapor Density: Not established

Solubility in Water : Soluble

**Molecular Formula**: Not applicable, formulated mixture.

Report Date 06-Jun-17

Page 3 of 4

Density, g/mL @ 25 °C : 1.435-1.455 Evaporation Rate(Butyl Acetate = : Not established

1)

Octanol/Water Partition : No information found

Coefficient

**pH**: 4.8 to 6.0

Flammable Limits (approximate : Not applicable

volume % in air)

Auto-ignition Temperature : Not applicable Decomposition temperature : No information found

## 10. Stability and Reactivity

Reactivity: No information found

Chemical Stability: Stable

Hazardous Decomposition : Will react with certain metals with evolution of hydrogen giving rise to potentially

**Products** flammable and explosive mixtures.

Hazardous Polymerization: Will not occur

Conditions to Avoid : Avoid extremes of temperature

Incompatible Materials: Caustic soda, chlorates, nitrates, calcium carbide, etc., mild steel, aluminum

alloy, brass, tin, and galvanized metals.

## 11. Toxicological Information

Acute Toxicity (Oral LD50) : No LD50 available. Excessive ingestion may cause irritation of the digestive

tract.

Acute Toxicity (Dermal LD50) : No LD50 available.

Acute Toxicity Inhalation LC50 : No LC50 available. Inhalation of spray mist may produce upper respiratory tract

irritation.

Likely Routes of Exposure : Skin, eyes, ingestion, inhalation

Skin Irritation : May cause skin irritation.
Eye Irritation : May cause eye irritation.
Skin Sensitization : No information found
Carcinogenic : None currently known.
Chronic Effects : No information found
Other Hazards : None currently known.

## 12. Ecological Information

**Ecotoxicity**: No information found

Persistence and Degradability : No information found Bioaccumulative Potential : No information found

Mobility in Soil : No information found Other Adverse Effects : No information found

## 13. Disposal Considerations

Waste Disposal Method : This material must be disposed of according to Federal, State, or Local

procedures under the Resource Conservation and Recovery Act.

#### 14. Transport Information

Report 06-Jun-17 Date

Page 4 of 4

UN Proper Shipping Name: Not regulated by DOT (highway), IMDG (water), or IATA (air).

Transport Hazard Class : None UN Identification Number : None Packaging Group: None

Environmental Hazards : No information found

Transport in Bulk : No information found Special Precautions for : No information found

**Transportation** 

Freight Classification: Fertilizing Compound, (Manufactured Fertilizer), Liquid, NOIBN (NMFC Item

68140, Sub 6, Class 70)

## 15. Regulatory Information

National Fire Protection :

**Association Rating** 

Health: Reactivity: 0

Rating Level: (4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Minimum)

S.A.R.A Title III Hazard : Classification (Yes/No)

> Immediate( Acute) Health: Y Delayed (Chronic) Health: N Sudden Release of N

Pressure: Fire: N

Reactive: N

## 16. Other Information

Data of Preparation/Revision: 06-June-2017
