For distribution and use only in the state of CA

For use on Sunflower Seeds for planting for control of postharvest pests

ProFume®

EPA Reg. No. 1015-79

SLN# CA-070003

Keep Out of Reach of Children

DANGER  **POISON**

PELIGRO

This label expires and must not be distributed or used in accordance with this SLN registration after **June 30, 2021**.

Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, and precautions on the EPA registered label for EPA Reg. No. 1015-79.

This Section 24(c) Special Local Needs label permits the use of ProFume® gas fumigant on sunflower seeds for planting for control of postharvest insects. Do not use ProFume on seeds for food, feed, or processing. Follow all use directions, requirements and precautions on the label attached to the product container and included in the ProFume Applicator's Manual.

Fumigation Conditions for Seeds

- The maximum target concentration in the ProFume Fumiguide is 128 oz/1000 cu ft.
- For normal atmospheric pressure (NAP) fumigations, do not exceed a maximum dosage of 1500 CT (1500 oz-h/1000 cu ft).
- For vacuum chamber fumigations, the maximum target concentration is 128 oz/1000 cu ft., do not exceed a maximum target dosage of 200 CT (200 oz-h/1000 cu ft).

CT = oz.-h/1000 cu ft.

The concentration in oz./1000 cu ft. of fumigant multiplied by the exposure time in hours.

ProFume Concentration Units

1 oz./1000 cu ft. = 240 ppm

Special Use Restrictions

- Do not use treated seed for any purpose other than planting.
- Since this product does not contain a dye, all raw seed treated with this product must be colored with an EPA-approved dye (e.g., 40 CFR 180.1001) which imparts an unnatural color to the seed to help prevent the inadvertent use of treated seed for food, feed, or oil purposes. Note: No dye is required for seed that is pelleted to give it an unnatural shape and/or color.
- Bags containing treated seed shall be labeled with the following information: "This seed has been treated with ProFume. Do not use for food, feed, or oil purposes. Store away from feeds and foodstuffs."
- If the applicator of this pesticide is not the producer, the applicator should provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product should provide a copy of this pesticide label to the seed conditioner.
