

MICRONUTRIENT SUPPLEMENT

MANGANESE

Net Contents - 2.5 US Gal (9.46 liters)
Net Weight - 27.5 lbs (12.47 kg)

Monty's® Manganese is a fully chelated solution of manganese EDTA and is recommended for the prevention and correction of manganese deficiency in all crops. The preferred use is soil application to prevent the deficiency although it may also be used as a foliar spray for correction.

Monty's Manganese GUARANTEED ANALYSIS

Manganese (Mn)6%
 6% Chelated Manganese (Mn)
 0.0% water soluble Manganese
 Derived from Manganese EDTA

FOR COMMERCIAL USE

WARNING: This micronutrient is intended only for the prevention and correction of manganese deficiency. Overuse on the intended crop, or under conditions other than those recommended, may result in serious injury to the crop. Monty's recommends use only in accordance with the recommendations of a qualified CCA, agronomist or dealer.

Directions for Use

Monty's Manganese may be applied in water, liquid fertilizers and suspensions, or with most pesticides. Application rates and dilution factors depend on crop sensitivity, the amount of foliage to be sprayed and the application method. Monty's recommends first taking a soil test to determine micronutrient levels in your soils. Application guidelines for one growing season in the absence of a soil test: (mixed with a minimum of 15 gallons of water per acre)

Field and Row Crops

Foliar: 1-2 pints
 Soil: 2-8 quarts

Vegetable Crops

Foliar: 1-2 pints
 Soil: 2-8 quarts

Monty's Nutrient Supplement is a liquid fertilizer that is recommended as a supplement to your current fertilizer program. It is best applied to the soil or plant directly. Monty's is not recommended to replace the nutrients typically added to the soil. We suggest taking a soil test and have a qualified independent lab analyze the samples to determine nutrient levels in your soils and then follow the recommendations of a qualified CCA, agronomist or dealer.

Use of Monty's Liquid Fertilizer with Farm Chemicals

Monty's products are designed specifically for fertility enhancement purposes. Monty's fertility products are compatible with many farm chemicals, but Monty's does not guarantee them to be so. When tank mixing any Monty's products with other farm chemicals, always read and follow the label directions of the chemical(s) you are considering. Monty's suggests administering a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other farm chemicals, it is suggested to tank mix Monty's only after diluting the chemical according to label directions. Knowing the chemical's "mode of action" (block photosynthesis) or metal content (copper based) will help determine the compatibility of Monty's. Please call (800) 978-6342 with any questions.

Storage and Handling

Keep container closed when not in use. Refer to the MSDS for other safety and handling information.

Limited Warranty

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.
