DIRECTIONS FOR USE:

USE RATES:

WATER TREATMENT: One gallon of THUNDERSTORM introduced to 30,000 to 50,000 gallons of water will lower the pH by one unit and consequentially lower bicarbonate levels. Water with high bicarbonate levels traditionally requires a higher ration of THUNDERSTORM and the reverse is true for water with less bicarbonate. Every water source is unique and results will vary.

THUNDERSTORM must be introduced at the water source. This can be done by injecting THUNDERSTORM into your main irrigation line. THUNDERSTORM is not an acid and requires no specialized pump construction. Your local dealer can provide information on injection systems.

First Aid: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Storage: Store in a cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

Disposal: Do not contaminate water, food or feed by storage or disposal. Wastes may be disposed of on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.
