

## DESCRIPTION

**Transit Foliar** is a foliar-applied liquid nutrient product that is designed to resolve nutrient deficiency in all crops.

## DIRECTIONS FOR USE

**Transit Foliar** should be used at the low rate when applying with FBS products and at the high rate when used alone or with non-FBS products.

**Transit Foliar** mixes well with most other liquids and wettable powders. **Transit Foliar** may be applied in combination with all of our other products. When mixing **Transit Foliar** with other materials always establish compatibility using the standard jar method prior to tank mixing.

Only tank-mix **Transit Foliar** with products where systemic uptake is desired. DO NOT mix with selective herbicides or crop oil concentrates without first consulting your certified crop consultant or pest control advisor.

**Transit Foliar** should be applied as a foliar spray. Spray in the late evening or early morning. DO NOT spray in the heat of the day. DO NOT spray when the plant is under moisture stress. DO NOT spray to the point of runoff. Use as fine of a spray mist as possible. Allow 3-4 hours after application before sprinkler irrigation to avoid washing off the product.

## RATES & TIMING

All Crops	6-15 OUNCES PER ACRE	Apply any time during growing season; Use higher rate with water volume over 50 gallons/acre.
-----------	-------------------------	---

## WARRANTY & CONDITIONS OF SALE
