PRODUCT INFORMATION

WHEATRIX® is non-phytotoxic when used as directed.

WHEATRIX is compatible with most insecticides, fungicides and herbicides which may be incorporated into a spray program. A Compatibility test is recommended if the desired combination has not been previously used.

APPLICATION RECOMMENDATIONS

SOIL APPLICATION RATES

Maintenance Concentration: 0.5-1 qt/acre.

Beginning Deficiency: 1-1.5 qts/acre.

Severe Deficiency: 1.5-4 qts/acre.

It is recommended that enough irrigation water be used to give thorough coverage. WHEATRIX can also be applied with liquid fertilizers in banding (8-24 ounces per/acre). Apply soil treatment in early spring for fruit, nut, and vegetable crops. For root injection application: use 1-3 ounces per 1000 sq. ft. of tree dripline area.

FOLIAR APPLICATION RATES

A surfactant (detergent) is recommended for all foliar applications to decrease drop size and enhance wetting of entire leaf surface. For best results apply as a foliar spray early in the morning or late evening. Do not apply during hot, dry weather or periods of drought. For aerial applications use at least 20 parts water to 1 part WHEATRIX. When mixing, add at least 20 volumes of water before other additives are introduced. WHEATRIX is designed to mix with phosphate fertilizers. With severe deficiency use the highest rate of application.

GRAIN CROPS: Apply 2-4 quarts at the 3 to 5 leaf stage. **FRUIT & NUT CROPS:** Apply 0.5-2 quarts per acre. Two applications during the growing season are recommended. Generally one as a dormant or delayed dormant spray and a second after petal fall. With grapes apply 1 qt/acre before bloom. For best results apply an additional 1 qt/acre near the bud swell period and also when shoots are 4-10 inches long. **FIELD AND VEGETABLE CROPS:** Apply 1-3 pints/acre early in the growth stage. For best results split applications are preferred over single applications prior to bloom. **TURF GRASSES:** Apply 1-2 qts/acre, Repeat as needed.

SPRINKLER IRRIGATION: Apply 1-4 qts/acre with irrigation water. Use check valve to prevent back flow into water system. **SMALL AREAS:** In greenhouses, flower gardens and ornamental dilute WHEATRIX 200 times and thoroughly wet the foliage. Repeat every 2 weeks or as needed.

READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT

- Consult your dealer or extension agent for recommendations.
- Use only as directed at time of purchase.
- Keep out of direct sunlight during storage for extended periods.
- Store at room temperature above 40° F
- Storage of bulk products is best suited for original manufacturing containers. If required, storage in a polypropylene storage tank with polypropylene fittings is recommended. Metal storage tanks and fittings are not recommended for long term storage of WHEATRIX.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

STORAGE and DISPOSAL

STORAGE: Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures. Do not contaminate water, food, or feed by storage or disposal. **DISPOSAL:** Do not reuse container. Plastic: Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling at an ACRC site (go to <http://www.acrecycle.org/> for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal. **HANDLING:** Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.
