AGRI-N™

NITROGEN SUPPLEMENT

Agri-N 14-0-0 GUARANTEED ANALYSIS

Total Nitrogen (N) 14%
14% Urea Nitrogen
Derived from Urea

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:
Fructose 13.2%
Glucose 12.8%

FOR TOBACCO USE:
Chlorine (Cl) Maximum. 0.02%

Monty's Agri-N helps provide nitrogen for green-up and sugar as a microbial energy source. It contains no suspended particles, thereby reducing nozzle problems. Monty's Agri-N may be blended with many liquid fertilizers and farm chemicals. Monty's Agri-N may be foliar applied, applied as a sidedress or in fertigation and chemigation.

APPLICATION RATES

For row crops, apply 1 to 3 quarts per acre for green-up and energy. For hay fields and pastures, apply 1 to 2 gallons per acre as a nitrogen source during the growing season.

Monty's Plant Food Company
4800 Strawberry Lane
Louisville, KY 40209
800-978-6342

MONTY'S PLANT FOOD is a liquid fertilizer that is recommended as a supplement to your current fertilizer program. It is best applied to the seed or plant directly. Monty's is not recommended to replace the nutrients typically added to the soil. We suggest taking a soil test and have a qualified independent lab analyze the samples to determine nutrient levels in your soils and then follow recommended applications to ensure proper nutritional levels.

STORAGE AND HANDLING

Keep container closed when not in use. Refer to the SDS for other safety and handling information. **CAUTION KEEP OUT OF REACH OF CHILDREN.**

USE OF MONTY'S PLANT FOODS WITH FARM CHEMICALS

Monty's products are designed specifically for fertility enhancement purposes. Monty's products are compatible with many farm chemicals. When tank mixing any Monty's products with other farm chemicals, always read and follow the label directions of the chemical(s) you are considering. Monty's suggests administering a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other farm chemicals, it is suggested to tank mix Monty's only after diluting the chemical according to label directions.

Knowing the chemical's "mode of action" (block photosynthesis) or metal content (copper based) will help determine the compatibility of Monty's. Once mixed or diluted, product should be used within 48 hours. Please call 800-978-6342 with any questions.

LIMITED WARRANTY

For a period of 12 months from the date of purchase, Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.
