Monty's is asked for by name by Master Gardeners, Garden Clubs and avid gardeners everywhere! The natural science behind Monty's began over 25 years ago as champion rose grower, Monty Justice, was looking for a superior plant food. His original formula has grown into a line of quality products that are used by homeowners, commercial landscapers, and farmers across the country.

## GUARANTEED ANALYSIS

### Soil Amending Ingredients:

Organic Carbon . . . . .	1%
Humic Acid . . . . .	2%
Other total ingredients (water) . . . . .	97%
Derived from Brown Coal	

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.htm>

**Monty's Premium Soil Conditioner** can be used on all soil types. It can be broadcast applied over large areas or at the base of all trees and shrubs or in flower beds, landscape beds, and in gardens. This product can improve moisture retention, assist in breakdown of organic matter and may enhance nutrient uptake.

**Application Information:** Monty's Premium Soil Conditioner is a concentrated product that should be diluted before using. Dilution rate for lawn & garden application is 2 ounces in 3 gallons of water. Can be applied through soaker hoses, drip irrigation, hose-end applicator, hand-held or pull-behind tank sprayers, in watering can or large bucket when applying around the base of a plant or spot treating soil. May be applied monthly depending on the desired results and condition of soil. Follow up rain fall will benefit product as it will assist in working it into soil profile.
