KEEP OUT OF REACH OF CHILDREN

Precautionary Statements: Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. **First Aid:** Wash hands after handling. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local regulations.

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

GENERAL INFORMATION

A liquid fish and guano fertilizer which forms a synergistic matrix that develops a cohesive partnership for vigorous plant growth.

DIRECTIONS FOR USE

Fish & Poop may be applied as a foliar spray or soil drench. Shake well before mixing and keep solution mixed well during application. Do not store mixed solutions. Apply in early morning or late afternoon to avoid leaf damage.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your garden.

FOLIAR SPRAYS:

BEDDING/ORNAMENTAL PLANTS – SHRUBS – TREES: Use ½ fl. oz. per gallon of water or ½ pint (8 fl. oz.) in hose-end sprayer. Apply monthly during growing season.

FLOWERS (Potted Plants – Cuttings – Seedlings – Bulbs/Seed – Rootings): Use ½ fl. oz. per gallon of water or ½ pint (8 fl. oz.) in hose-end sprayer. Apply monthly during growing season.

TREES (Fruit – Citrus): Apply ½ fl. oz. per gallon of water or ½ pint (8 fl. oz.) in hose-end sprayer prior to popcorn stage. Apply every 14 days.

VEGETABLES: Use ½ fl. oz. per gallon of water or ½ pint (8 fl. oz.) in hose-end sprayer. Apply monthly during growing season.

SOIL DRENCH:

Mix ½ fl. oz. per gallon of water and apply on the soil beneath the plants. Repeat every 14 days.

INDOOR HOUSEPLANTS: Mix a solution of ½ fl. oz. in one gallon of water. Apply every time you water.

TRANSPLANT (Balled in Burlap, Bare Root, Sets, Roots or Container Grown): Mix solution of 1½ fl. oz. per gallon of water. Pour ½ pint (8 fl. oz.) of solution in prepared hole, back fill with soil and firmly tamp. After new growth has become established, use directions for foliar applications or soil drench.

NOTICE: Because weather, crop, soil, and other conditions may vary, Lawn and Garden Products, Inc. and/or the Seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling, whether or not in accordance with directions.
