#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

| CROP  | DISEASE  | DOSAGE  |
|---|--|---|
| For the treatment of coriander seed to be exported out of the USA; and for use on seed planted to produce coriander grown for seed in the State of Oregon.  | To aid in the control of seed decay, damping-off and seedling blight | For standard mechanical, slurry or mist-type treaters, apply 2.5 to 5 fluid ounces of 42-S Thiram Fungicide per 100 pounds of seed. Product should be diluted with sufficient water to give uniform coverage of seed. |
| NOTE: Treat and conduct germination tests on a small portion of the seed before committing the total seed lot to the chemical treatment.  |  |   |
| SEED LABELING: Treated seed must be labeled "Do not use this treated seed to grow coriander or cilantro for human or animal consumption in the United States. For export only and for use on seed planted to produce coriander grown for seed." The U.S. Seed Act requires that treated seed be labeled with the following information:<br><br>This seed treated with Thiram at the rate recommended by the manufacturer. Treated seed must not be used for, or mixed with food or animal feed or processed for oil. Exposed treated seed may be hazardous to birds and other wildlife. Dispose of all excess treated seed and seed packaging by burial away from bodies of water.<br><br>Use with an EPA-approved dye that imparts an unnatural color to the seed. |  |   |

- For export only and for use on seed planted to produce coriander grown for seed in the State of Oregon.
- Do not use treated seed for human or animal consumption.
- Do not use this treated seed to grow coriander or cilantro for human or animal consumption in the United States.
- Bayer CropScience makes no claims as to the effect of this product on disease control or seed germination. All such risks shall be assumed by the Buyer.
