Corteva Agriscience LLC 9330 Zionsville Road Indianapolis, IN 46268-1054 USA

## Radiant<sup>®</sup> SC

EPA Reg. No. 62719-545

### 2(ee) Recommendation<sup>†</sup>

For Distribution in All States Except New York and Texas

### Control of Spotted Wing Drosophila on Various Crops

#### ATTENTION

† This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the EPA.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read and follow all applicable directions for use, precautions, and limitations on the product label attached to the container for this product.
- Use of Radiant SC according to this Section 2(ee) recommendation is subject to all use precautions and limitations imposed by the label affixed to the container for Radiant SC.

#### Directions for Use

Refer to product label for Radiant SC for General Use Precautions, Mixing Directions and Application Directions.

Radiant<sup>®</sup> SC can be used as part of an integrated program to manage spotted wing drosophila. This use is limited to ground application.

Apply 6 to 10 fl oz of Radiant SC per acre to fruiting vegetables for control of spotted wing drosophila. Use a higher rate in the rate range for moderate to severe infestations and/or larger plant volume. Begin applications at first signs of adult activity. Due to the occurrence of multiple generations in a growing season, repeated applications may be required. Follow resistance management recommendations on the product label.

Consult your Corteva Agriscience representative, extension service specialist, certified crop advisor or your state agricultural experiment station for any additional local use recommendations for your area. Refer to specific crop sections of the product label for additional information and restrictions.

**In Indiana**, use of this product according to this bulletin has not been reviewed or endorsed by the Office of the Indiana State Chemist. This recommendation must be in the possession of the user at the time of application.
