

SUPPLEMENTAL LABEL

For distribution and use only within the states of MA, NJ, OR, WA, WI

Active Ingredient:

<i>Bacillus thuringiensis</i> , subsp. <i>kurstaki</i>	3.5% w/w
INERT INGREDIENTS	96.5% w/w
TOTAL	100.0% w/w

Potency:

17,600 International Units per mg of product or 64 billion International Units per gallon of product.

Potency units should not be used to adjust use rates.

EPA Registration No. 73049-17

EPA Est. No. 33762-IA-001

KEEP OUT OF REACH OF CHILDREN CAUTION

Supplemental Label for control of Lepidopterous insects on Cranberry

Refer to product label for Statement of Practical Treatment, Precautionary Statements, WPS Requirements, and Directions for Use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the Agency responsible for pesticide regulation.

CROP	PEST	PINTS/ACRE¹
Cranberry ¹	Spanworm, Blossom Worm, Sparganothis Fruitworm, Fireworm, Cranberry Fruitworm, Armyworms,	2.0-4.0
	Gypsy Moth, Looper, Tent Caterpillars	1.0-2.5
	Black Cutworm	2.0-2.5

¹Treat when larvae are young and before economic thresholds of damage have been exceeded. If hatch occurs over an extended period of time, multiple applications should be considered. Use higher rates when pest pressure is heavy and/or older larvae are present. Tank mixes of Dipel ES plus a low rate of a contact insecticide registered for use on cranberries may enhance control of heavy populations and large larvae. The use of an approved spreader sticker is recommended

This label must be in possession of user at time of application.
