

BLACKJACK® K

Potassium 0-0-25

CONCENTRATED FORMULA

GUARANTEED ANALYSIS
Soluble Potash (K₂O)25.00%

Derived From: Potassium Hydroxide

KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Avoid contact with skin, eyes or clothing.

F1548
FOR COMMERCIAL OR PROFESSIONAL USE ONLY

GENERAL INFORMATION

BLACKJACK® K Potassium 0-0-25 is non-phytotoxic when used as directed and is compatible with most commonly used pesticides and fertilizers.

CAUTION: Always check compatibility with other products prior to use. Do not mix with conventional products containing the salts of heavy metals. Do not mix with conventional calcium or magnesium fertilizers.

CAUTION: Foliar application of **BLACKJACK K** close to harvest may leave a brown residue on the harvestable portion of the crop. Rainfall, sprinkler irrigation or high humidity should alleviate this condition.

DIRECTIONS FOR USE

BLACKJACK K can be applied to most vegetable and cucurbit crops, field and row crops, deciduous fruit and nut trees, grapes, berries, olives, avocados and citrus. All foliar applications should be as a dilute spray. May also be applied directly to soils or injected through irrigation systems where water quality is satisfactory to maintain solubility. Mixing with irrigation water for field storage is generally not recommended. Products blended with irrigation water should be used immediately and not stored for prolonged periods.

FOLIAR APPLICATION

FIELD CROPS & ROW CROPS: Apply 1 to 4 quarts per acre in enough water for thorough coverage, not to exceed a 2% (v/v) concentration of **BLACKJACK K** to water. Repeat applications every 2 to 4 weeks as needed. May be applied through center pivot irrigation systems.

VEGETABLES & FRUIT CROPS, ORCHARDS & VINEYARDS: Apply 1 to 4 quarts per acre in enough water for thorough coverage, not to exceed a 2% (v/v) concentration of **BLACKJACK K** to water. Repeat applications every 2 to 4 weeks as needed. In grapes apply 1 to 4 quarts per acre in enough water not to exceed 1.5% (v/v). Repeat every 2 weeks as needed.

SOIL APPLICATION

BLACKJACK K may be applied pre-plant, as a starter, side dress, fertigated, top dressed or banded to the soil. Dilute with water if needed to ensure uniform distribution. **BLACKJACK K** may be used as a pop-up or in-furrow at 0.25 to 1 gallon per acre (not to exceed 5 lbs per acre N+K₂O+S on low CEC soils).

FIELD & ROW CROPS, VEGETABLE & FRUIT CROPS: Apply 1 to 30 gallons per acre in a surface or sub-surface band. Repeat applications may be beneficial.

ORCHARDS & VINEYARDS: Inject 10 to 30 gallons per acre 3 to 5 inches deep at the drip line, or surface band and water into the soil. Repeat applications may be beneficial.

FERTIGATION APPLICATION RATES

FIELD & ROW CROPS, ORCHARDS & VINEYARDS, VEGETABLE & FRUIT CROPS: Use 1 to 20 gallons per acre per irrigation. Continue irrigation for a minimum of 2 hours after application to flush lines and to maximize nutrient distribution with drip and microsprinkler use. Repeat applications may be beneficial.

APPLICATION THROUGH DRIP IRRIGATION - inject after irrigation filter.

TRANSPLANT WATER - FIELD & ROW CROPS, ORCHARDS & VINEYARDS, VEGETABLE & FRUIT CROPS:

Use 1 to 5 gallons per acre, not to exceed a 3% solution of **BLACKJACK K** to water.

MIXING INSTRUCTIONS

BLACKJACK K disperses well in water, but for best results, mix as follows:

1. Partially fill tank with water and start agitation.
2. Add **BLACKJACK K** to circulating tank mix.
3. Add other nutrients or pesticides.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

STORAGE AND DISPOSAL

STORAGE: Store above 40°F (4.4°C). Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. **PROTECT FROM FREEZING.** Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL: Do not reuse container. Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling at an ACRC site (go to <http://www.acrecycle.org/> locations for) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal.

HANDLING: Avoid breathing fertilizer mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY
