

FIFRA Section 24(c) Special Local Need Label

FOR DISTRIBUTION AND USE ONLY WITHIN OREGON

SELECT MAX® Herbicide with Inside Technology™

**EPA Reg. No. 59369-132
EPA SLN No. OR-080001**

For control of weeds in meadowfoam (*Limnanthes spp.*).

This label valid until December 31, 2018 or until otherwise amended, withdrawn, canceled or suspended.

INTENDED FOR USE ONLY BY A MEMBER OF THE OMG, MEADOWFOAM OIL SEED GROWERS OR A NON-MEMBER APPROVED BY THE ASSOCIATION PRIOR TO USE OF THIS PRODUCT.

Active Ingredient:	
Clethodim.....	12.6 %
Inert Ingredients.....	87.4%
Total:.....	100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

VALENT'S SPECIAL CONDITIONS AND DISCLAIMER FOR USE OF SELECT MAX HERBICIDE ON MEADOWFOAM

Valent U.S.A. Corporation intends that this FIFRA Section 24(c) label be distributed only by the OMG, Meadowfoam Oil Seed Growers and member(s) in Oregon only to end users and/or growers who agree in writing to the terms and conditions required by the OMG, including a waiver and release from all liability and indemnification by the user and/or grower of Valent U.S.A. Corporation, OMG and others for failure to perform and crop damage from use of SELECT MAX Herbicide on Meadowfoam oil seed crops. If such terms and conditions are unacceptable, return SELECT MAX Herbicide at once unopened.

ENVIRONMENTAL HAZARDS:

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not apply where weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment wash water or rinsate.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

Follow all applicable directions, restrictions, and precautions on this FIFRA Section 24(c) label and the EPA-registered product label.

This label and the EPA-registered product label must be in the possession of the user at the time of pesticide application.

APPLICATION INFORMATION

Apply SELECT MAX Herbicide post-emergence to actively growing grasses according to the following rate table recommendations.

Rate Table

Grass Species	Weed Height ¹ Inches	Normal Rate ² Fl. oz./Acre	High Rate ³ Fl. oz/Acre
Wild Oats (<i>Avena fatua</i>)	2-6	9	16
Annual Bluegrass (<i>Poa annua</i>)	Apply before 4-leaf stage	9	16
Volunteer Cereals			
Barley (<i>Hordeum vulgare</i>)	2-6	9	16
Oats (<i>Avena sativa</i>)	2-6	9	16
Rye (<i>Secale cereale</i>)	2-6	9	16
Wheat (<i>Triticum aestivum</i>)	2-6	9	16
Perennial Ryegrass (<i>Lolium perenne</i>)	2-4	12	16
Quackgrass (<i>Agropyron repens</i>)			
First Application	4-8	16	
Repeat Application(s) (if regrowth occurs)	4-8	16	

¹Generally occurs between 3-leaf stage and tillering.

²Apply under favorable soil moisture and humidity which exists within a few days after rainfall or within 7 days after irrigation. Apply at weed height as indicated on the label.

³Use the high rate under heavy grass pressure and/or when grasses are at maximum height.

Use of sufficient spray volumes and pressure is essential to ensure complete coverage. Use a minimum of 20 gals. and a maximum of 40 gals. of spray solution per acre for ground application only.

SELECT MAX may be applied by aircraft using a minimum of 10 gals. of spray solution per acre.

Apply only to actively growing grasses at recommended weed heights.

Apply when the first grass weed species in a mixed grass weed population reaches the recommended height.

Use of a Non-Ionic surfactant at 0.25% v/v is recommended. Use of spray grade ammonium sulfate at 1.5-2.0 lb per acre will help maximize grass control.

Do not exceed at total of 32 fl. oz./acre (0.25 lb a.i.) per season.

Do not apply during mid-winter when severe cold periods frequently occur. Severe meadowfoam damage has been observed in some cases associated with hard frost even several weeks after application. Applying SELECT MAX between December 15 and February 1 in western Oregon increases the risk of crop injury.

Restriction: Do not apply this product through any type of irrigation system.

Special Crop Use Restrictions:

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to: green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

“This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate Requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies.”
