

# AP LIQUID BORON 10%

## Guaranteed Analysis

Boron (B) .....10%  
 Derived from: Boric Acid

**AP Boron** is a clear solution of plant food that when used according to recommendations will help control boron deficiencies. It is specially formulated to enhance uptake and leaf absorption as well as solubility in both water and NPK fertilizer materials

**AP Boron** can be tank mixed with water and/or most pesticides and incorporated in NPK fertilizer materials. It can be foliar sprayed injected through irrigation systems or applied broadcast.

## Directions for Use

**Foliar:** **AP Boron** will disperse in water with minimum agitation, follow the mix sequence:

1. Water
2. Boron
3. Pesticide – Min. GPA: 20 ground, 5 air

## Fluid Fertilizer Mfg.:

**AP Boron** does not require premixing before addition to fertilizer. When mixing in a batch tank, add to water or nitrogen solution before adding phosphate material. Mix thoroughly.

## Recommended Rates

**IMPORTANT:** Always get specific boron recommendations from your extension service or consultant before applying boron. Excessive amounts of boron may cause damage.

**AP Boron** is recommended on the following crops at these suggested rates:

FIELD CROPS	RATE/ACRE
