

FS Eliminator™

FOAM DESTROYER

FS Eliminator is the strongest, fastest working defoaming agent available. FS Eliminator aggressively suppresses initial foam build up under agitation and quickly neutralizes established foam in the widest possible range of pesticide and/or fertilizer tank mixes, including Liberty® and Enlist™ formulations.

KEY BENEFITS

Now more than three times stronger than ordinary defoamers

Superior foam suppression under agitation

Flexible formulation can be used as either a defoamer or an antifoam

USE RATE

» 2 to 4 fl oz/100 gal of spray solutions

PACKAGE SIZE

» 12/1 qt containers
» 4/1 gal jugs

BULK DENSITY

» 2.08 lb/qt
» 8.30 lb/gal

FS TankMax™

COMPATIBILITY AGENT, BUFFER & SPREADER

FS TankMax is a tank mix compatibility agent formulated to eliminate compatibility problems associated with tank mixing UAN/ATS solutions or suspension fertilizers with emulsifiable concentrates and flowable pesticides. FS TankMax can also function as an effective spreader and/or buffering agent depending on the use rate.

KEY BENEFITS

Increases tank mix partner options in water or nitrogen carriers

Helps correct incompatibilities

Lowers spray solution pH to prevent alkaline hydrolysis

Ideal for tank mixes with UAN and ATS solutions

USE RATE

» 1 to 4 pt/100 gal of spray solution (0.125-0.5% v/v)

PACKAGE SIZE

» 2/2.5 gal jugs
» 250 gal minibulk

BULK DENSITY

» 8.67 lb/gal
