

WETECH

SOIL SURFACTANT

WET-TECH is a multi-purpose surfactant that reduces the surface tension of water to enhance soil moisture content.

WET-TECH increases rootzone soil moisture by reducing soil repellency to water.

WET-TECH contains a sequestering agent that sequesters a range of hard water ions.

WET-TECH enhances irrigation efficiency throughout the growing season when applied at label use rates.

Manufactured For:

Valley Agronomics LLC

910 South Oneida, Rupert, ID 83350 • 208-436-0141

CONTAINS NONPLANT FOOD INGREDIENTS

20.0% Oxirane, methyl, polymer with oxirane

9.0% Poly (oxy-1,2-ethanediyl),
alpha-(4-nonylphenyl) omega-(hydroxy, branched)

7.0% Potassium citrate

64.0% Water

WARNING: KEEP OUT OF REACH OF CHILDREN

Causes skin irritation. Causes serious eye irritation.

PRECAUTIONARY STATEMENTS: Wash thoroughly after handling. Wear protective gloves and eye/face protection.

FIRST AID: IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention. IF ON SKIN OR CLOTHING: Wash with plenty of soap and water. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse. Refer to back label for more First Aid statements.

STORAGE & DISPOSAL: Store in a closed container. Dispose of contents and container in accordance with local and national regulations. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

NET CONTENTS

2.5 Gallons (9.46 Liters) / 2 x 2.5 Gallons (18.57 Liters)

DENSITY

8.17 Pounds per Gallon @ 68°F

WET-TECH

NOT A PLANT FOOD INGREDIENT

DIRECTIONS FOR USE AND USE RATES

WET-TECH can be tank mixed with commonly utilized tank mix management products. A basic jar compatibility test is recommended as well as an application to a small area prior to full scale application to assess effect on applicator's specific target area.

WET-TECH can be used with micro-aspiration, drip, tape, or overhead irrigation systems.

Injection Rate Application

Apply WET-TECH with first irrigation cycle at 1 quart per acre. Apply subsequently at 1 pint per acre monthly. Adjust application timing depending upon soil type and crop water requirements.

Spray Rate Application

Apply WET-TECH at 1 quart per acre. Follow applications with irrigation cycle to move product into soil profile. Apply subsequent applications at 1 pint per acre monthly followed by irrigation.

Note: Factors, such as environmental conditions and weather conditions, should be noted when choosing application times, and during periods of high temperature extremes. All surfactants should be irrigated after application to ensure safety and efficacy.

FIRST AID MEASURES IN CASE OF CONTACT

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

IF SWALLOWED: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

IF INHALED: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

IF ON SKIN OR CLOTHING: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of this product. Store in a closed container. Keep cool. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit their website at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local and national regulations.
