

ADJUVANT

VINCITRO™

Penetrant-Spreader-Wetting Aid

PRINCIPAL FUNCTIONING AGENTS:

Alcohol Ethoxylate and Sodium Lauryl Ether Sulfate	14.96%
Constituents Ineffective as Spray Adjuvants	85.04%
Total	100.00%

Surfactant Content: 14.96%

All ingredients exempt from the requirements of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

Read Entire Label Before Using This Product

CA Reg. No.
WA Reg. No.

HAZARD STATEMENTS:

HARMFUL IF INHALED.
CAUSES SERIOUS EYE IRRITATION.

PRECAUTIONARY STATEMENTS

General:

If medical advice is needed, have product container or label on hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.
Wear protective gloves, protective clothing, eye protection and face protection.
Take off contaminated clothing and wash before reuse.
Avoid breathing fume/mist/vapors/spray.
Use only outdoors or in a well-ventilated area.

Response: Call a POISON CENTER or doctor/physician if you feel unwell. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer or distributor to specify the appropriate source of emergency.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF SWALLOWED: Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer or distributor to specify the appropriate source of emergency medical advice.

ENVIRONMENTAL HAZARDS: Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

NET CONTENTS: 265 Gal (1003 L)

APE/NPE FREE - Product free of alkyl phenol ethoxylate and nonylphenol ethoxylate, surfactants known to be ecotoxic.

FIRST AID:

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by the poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

PRODUCT INFORMATION

VINCITRO is a highly effective surfactant designed for use with insecticides, miticides, fungicides, herbicides, plant growth regulators, defoliants and nutrients. **VINCITRO** is designed for superior spreading, penetration and uniform distribution. The Non-Ionic (NIS) chemistry in **VINCITRO** enhances the physical and chemical properties of the spray solution and assists in overcoming water repellency of the leaf surface.

DIRECTIONS FOR USE

Prior to use, read all the directions on this label and on the labels of the manufacturers' products being used with **VINCITRO**. The manufacturers' labels for specific usage and restrictions has precedence over directions for use referred to on the **VINCITRO** label. Test for compatibility prior to mixing and application with other chemicals. Always test new tank mix combinations before widespread use. If unsure, check with the manufacturers or contact your local State Extension Service if you have questions. To ensure thorough mixing, it is suggested that you recirculate mini tanks and bulk tanks or shake containers before using. Pre-rinse all tanks, spray lines or containers thoroughly before adding **VINCITRO**. Increasing tank mix compounds will increase precipitation and phytotoxicity risk. Extended high temperatures (>90° F) with some tank mixes may increase phytotoxicity risk and should be tested and observed before widespread use.

PRECAUTIONS

- Do not apply to fruiting stages of pome fruit, cherries, table grapes or other sensitive or stressed crops without first consulting your Innvictis Crop Care representative.
- Test for compatibility when combining in tank mixes with EC products, copper and/or chlorpyrifos on sensitive crops
- **NOTE:** **VINCITRO** reduces dew formation for up to 7 days and therefore may increase the risk of frost damage in frost prone areas.

NOTE: NOT FOR AQUATIC USE.

MIXING

Fill tank one-half full with water. Add the required amount of other tank mix products while agitating. Add remainder of the water. Add the recommended amount of **VINCITRO** last and continue agitation until completion of spraying. For best results, use within 24 hours of mixing. Antifoam and buffering agents may be used if required.

RECOMMENDED RATES

HERBICIDES:

24-96 fl. oz. per 100 gallons of water. Use higher rates on weeds with waxy or hairy leaf surfaces that are hard to penetrate.

INSECTICIDES, FUNGICIDES, MITICIDES, NUTRIENTS AND PLANT GROWTH REGULATORS:
-IN CONVENTIONAL AND AIR ASSISTED SPRAYERS:

PERENNIAL CROPS:

Use 16-64 fl. oz. per 100 gallons of water. DO NOT EXCEED 64 fl. oz. per acre **unless otherwise indicated here below:**

Vines: On table and wine grapes, during or prior to a period of excessively high temperatures (>90°F) and during the period of flowering to harvest on table grapes. DO NOT EXCEED 32 fl. oz. per acre.

Citrus: DO NOT EXCEED 64 fl. oz. **VINCITRO** per acre in high volume applications (>400 gpa) during June to September, or 96 fl. oz. **VINCITRO** per acre during other months.

Plant growth regulators on trees and vines (e.g. chemical thinners, fruit sizers, coloring agents, etc.): 5-20 fl. oz. per 100 gallons of water.

FIELD AND ROW CROPS (including desiccants, defoliants and growth regulators on cotton):

Use 24-64 fl. oz. per 100 gallons of water.

-IN ULTRA LOW VOLUME EQUIPMENT (AERIAL, ELECTROSTATICS & MISTERS) ON ANY CROP:

Use 3-32 fl. oz. **VINCITRO** per acre. DO NOT EXCEED 100 fl. oz. **VINCITRO** per 100 gallons of water (0.8% v/v).

-THROUGH IRRIGATION SYSTEMS*: such as drip, microjet, sprinklers or pivot use 16-128 fl. oz. per acre. Refer to the **SUPPLEMENTAL LABELING FOR CHEMIGATION APPLICATIONS** for additional use requirements and restrictions in Washington.

* Not approved in California.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in original container only, away from other pesticides, fertilizers, food or feed.

DISPOSAL: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers
