

# FertiDrip™

## 0-0-25

### LIQUID POTASSIUM CARBONATE SOLUTION

Formulated for applications through drip and low volume irrigation systems

#### Guaranteed Analysis

Soluble Potash (K<sub>2</sub>O).....25.0%

#### Derived from: Potassium Carbonate

**Each gallon Contains:** 2.94 pounds of K<sub>2</sub>O

**Specific Gravity:** 1.41  
**Density:** 11.76 lbs/gal @ 68°F  
**pH Range:** 12 - 13  
**Salt Out Temp:** 15°F

#### WARNING

**KEEP OUT OF REACH OF CHILDREN**

**EPA National Response Center: (800) 424-8802**

#### GENERAL INFORMATION

FertiDrip™ 0-0-25 solution is manufactured to stay in solution and reduce precipitation caused by irrigation water. FertiDrip™ 0-0-25 solution provides potassium at the critical growth stage when soil uptake is limited. Please consult your Mar Vista Representative for specific placement and application guidelines.

#### DIRECTIONS FOR USE

Inject FertiDrip™ 0-0-25 solution into the irrigation lines after filters. Thoroughly clean irrigation lines and system after injection of FertiDrip™ 0-0-25 solution by flushing irrigation lines and system with clean water prior to turning off pumps.

FertiDrip™ 0-0-25 solution is a soil-applied fertilizer for use in all drip and micro sprinkler irrigation systems. FertiDrip™ 0-0-25 solution can be used for all crops and is compatible with all irrigation water. Apply 10-15 gallons per acre based on crop needs. Total injection time for FertiDrip™ 0-0-25 solution must not exceed 4 minutes per acre treated if the system flow is >2000 gallons per minute (i.e. 80 minutes or less for a 20 acre block). If <2000 gallons per minute, inject time must be less than 6 minutes per acre (i.e. 120 minutes or less for a 20 acre block).

**CAUTION:** Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products, "Jar Test" proportionally mixed components to confirm compatibility. When blending with other products, trial blends should be conducted before beginning large scale mixing. When blending with other pesticides and fertilizers, the sequence should be as follow: water, pesticide, fertilizer, micro-nutrients.

**WARNING:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

#### CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
