Net Contents: 2.5 gal. / 9.5 L  
Net Weight: 25.1 lbs. / 11.4 kg

## MIX WELL BEFORE USING

**Directions For Use:** Use Komodo to help prevent or correct potassium deficiencies. The product is stable, non-caustic and non-corrosive, and can be used in a wide range of application equipment. Komodo also contains chelated micronutrients suitable for programs where potassium and micronutrients are needed. Buffered to a slightly acidic pH, Komodo works well where lower pH products are desired.

### Application Rates:

- **Crops:** Apply one to four gallons/acre as indicated by soil or tissue analysis.
- **Turf:** Apply six to 28 fluid ounces per 1,000 square feet as needed. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden.

**Compatibility With Other Materials:** Komodo has a slightly acidic pH and is compatible with most fertilizers and pesticides. Agitate thoroughly when tank mixing. Add water first, followed by Komodo and then other ingredients. Do not pre-mix Komodo directly with undiluted high sulfate or high pH products.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>

Information concerning the raw materials composing the product Komodo™ can be obtained by writing to Solutions 4Earth, LLC.
