

MSO, DRT, & Water Conditioner

RATE OF FAST PACE

.25% -2.00% v/v

Follow herbicide label recommendations for adjuvants.

INGREDIENTS

MSO, water conditioning agents, & emulsifiers.....97.5%
Constituents ineffective as an adjuvant..... 2.5%
Total..... 100%

PRODUCT BENEFITS

- Drift Control
- Water conditioning
- Penetration and deposition

CAUTION: KEEP OUT OF REACH OF CHILDREN

May cause skin and eye irritation. Avoid eye and skin contact. Do not take internally.

HANDLING AND STORAGE

Harmful if inhaled or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Personal protective equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pants, socks and shoes.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES: hold eye open and rinse slowly and gently for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF SWALLOWED: Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

CALL A POISON CONTROL CENTER: 800-222-1222 OR DOCTOR IMMEDIATELY IF SYMPTOMS OCCUR OR YOU FEEL UNWELL.

GENERAL INFORMATION

Optimize crop protection performance with Fast Pace. Formulated with oil-emulsion deposition and drift reduction agents, Fast Pace is designed to improve the uniformity of the spray droplets without sacrificing coverage. Fast Pace is a MSO-based adjuvant that maximizes contact activity by providing penetration, better surface spreading, and humectancy. Optimum herbicide performance is maintained with our proprietary water conditioner by alleviating antagonisms caused by hard water impurities. Together, these ingredients promote easy tank mixing at the sprayer and will improve the performance of a wide range of pesticide spray mixtures that require or recommend an MSO, water conditioner, drift management, or NIS.

DIRECTIONS FOR USE

Add Fast Pace first to agitating tank. For use with herbicides (including desiccants, insecticides, and fungicides). Prior to use, read all directions chemical label directions, and directions on this label. Fast Pace is not intended as a substitute for good agronomic practices, and sound application techniques must be used when spraying.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001(d)

Seller makes no warranty of fitness or merchantability. Buyer agrees that sellers maximum liability shall not exceed the purchase price of this product.

Important: This product has demonstrated excellent plant safety; however, not all species and varieties have been tested. Before treating a large area, treat a small area and observe prior to full scale application.
