

FIFRA Section 2(ee) Recommendation

Nealta[®]

Miticide

For suppression of flat mites, *Brevipalpus* spp., in citrus

For use in: Arizona, California, Florida, and Texas.

This Section 2(ee) Recommendation expires on December 31, 2024.

EPA Reg. No. 7969-336

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered container label are to be followed.

Information contained in this Section 2(ee) Recommendation is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

Directions For Use

Apply 13.7 fl ozs/A of Nealta[®] Miticide for suppression of flat mites, *Brevipalpus* spp., in citrus. Flat mites are also known as false spider mites because they look like spider mites with flattened bodies. Spider mites and false spider mites both belong to the same super family *Tetranychoidae*. See container label for all citrus application instructions and restrictions.
