

M5O

Modified Vegetable Oil Concentrate

Seed Care Inc.

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of methylated soybean oil and alkylphenol ethoxylate..... 100%
All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye irritation. Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present, after the first 5 minutes, then continue cautiously rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash skin with plenty of soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. DO NOT INDUCE VOMITING.

IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

M5O combines methylated seed oil (MSO) and emulsifiers to enhance wetting of the target and diffusion of the active ingredient through the weather hardened cuticle of grasses and broadleaf plants.

M5O meets the standards of active ingredient labels that recommend the use of an MSO or crop oil in the tank mix.

DOES NOT CONTAIN AMS.

DIRECTIONS FOR USE

Follow the recommendations of the most restrictive active ingredient label. Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Use only if methylated seed oil (MSO) is allowed or not excluded on the label.

Care should be used when applying this or any other product during hot, dry conditions.

NET CONTENTS:

2.5 U.S. Gallons (9.46 L)

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. Surfactants or other adjuvants

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

USE RATES

Use M5O in spray mixture at a rate of 1 - 2 pints per acre at a spray rate of a minimum of 20 gallons per acre.

M5O should not exceed 1% of the spray volume.

Do not use higher percentages of M5O or lower volumes of spray solution per acre as this may cause damage to sensitive plants.

Note: Tank mixtures including M5O should be utilized within 36 hours for best results.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. STORE BETWEEN 40° AND 90° F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

For Emergency, Spill, Leak, Fire, Exposure, or Accident.
