### **Do not contaminate water, food or feed by storage or disposal.**

Store in a cool dry place out of direct sunlight, preferably in a heated storage facility. Spills from broken containers can be cleaned up by absorbing on clay or other suitable absorbent. Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility. Triple rinse containers. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by Federal, State, or local authorities.

Store this product in stainless steel, fiberglass, polyethylene, or certain other plastic materials. Copper or any of its alloys (brass or bronze) should never be used in any chelate handling system. Aluminum and mild steel tanks are not recommended for storage of this product. Check with equipment manufacturer for compatibility of components prior to use of this product. NOTE: Do not mix or contaminate any EDTA type chelates with strong acid materials.

**Platinum Copper 7.5% EDTA** is a fully chelated micronutrient recommended especially for:

1. Mixing with liquid fertilizers for pre-emergence or post-emergence application.
2. Mixing with liquid fertilizers for foliar application.
3. Application in irrigation water, either alone or in combination with fertilizers and/or pesticides.
4. Mixing with pesticide spray solutions for soil application.
5. Application either alone or as a component in other liquid mixtures where soil application is otherwise impractical.
