Clincher[®] SF

EPA Reg. No. 62719-357

2(ee) Recommendation[†]

(For Distribution and Use Only Within the State of Texas)

This product bulletin expires December 31, 2026, and must not be used or distributed after this date.

Reduced Rate of Clincher SF for Early Postemergence Control of 1 to 3 Leaf Grasses in 1 to 2 Leaf Rice

ATTENTION

[†] This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to container for Clincher[®] SF herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Except as specified in this product bulletin, use of Clincher SF is subject to all use precautions and limitations imposed by the label affixed to the container for Clincher SF.

Directions for Use

Clincher SF may be applied at 10 to 13.5 fl oz per acre in tank mix combinations with labeled rates of Command (clomazone), Pendimax[®] 3.3 herbicide (pendimethalin), Prowl (pendimethalin), Facet (quinclorac), or Grasp[®] SC herbicide (pinoxsulam) for early postemergence control of grasses in rice.

Grasses should be 1 to 3 leaf stage and rice should be 1 to 2 leaf stage at application. Soils should be saturated at application for satisfactory weed control. Because of the need for saturated soils at application, ground application is strongly discouraged. Reduced weed control may result from application of Clincher SF to stressed weeds. Use of an agriculturally approved crop oil concentrate or methylated seed oil at a minimum rate of 1 quart per acre must be used for all applications of Clincher SF.

When tank mixing, follow label directions, including application rates, use precautions and limitations on each respective label.

Grasses Controlled

Common Name	Scientific Name
Amazon (tighthead) sprangletop	<i>Leptochloa panicoides</i>
barnyardgrass	<i>Echinochloa crus-galli</i>
bearded sprangletop	<i>Leptochloa fascicularis</i>
broadleaf signalgrass	<i>Brachiaria platyphylla</i>
fall panicum	<i>Panicum dichotomiflorum</i>
johnsongrass (seedling)	<i>Sorghum halepense</i>
jungerice	<i>Echinochloa colona</i>
knotgrass	<i>Paspalum distichum</i>
red sprangletop	<i>Leptochloa filiformis</i>
