GENERAL INFORMATION: TACTIC™ combines the adherence ability of a latex polymer with super coverage of organosilicone surfactants. TACTIC will increase deposition, reduce run-off and secure spray from rain or overhead irrigation. TACTIC will decrease surface tension, resulting in better coverage. TACTIC promotes rapid spreading for a uniform protective film. TACTIC can be used in terrestrial or aquatic settings. Apply sprays containing TACTIC at least 30 minutes before an anticipated rain or overhead irrigation.

THIS PRODUCT CAN BE USED IN THE FOLLOWING SETTINGS: AGRICULTURAL, AQUATIC, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND TURF.

DIRECTIONS FOR USE: Fill spray tank 1/2 full with water and begin agitation. Add pesticides as directed by label, while maintaining agitation. After pesticides are thoroughly mixed, eliminate any existing foam with approved defoamer (UNFOAMER®). To minimize foam from organosilicone surfactant, fill tank to desired water volume before adding TACTIC. For tank mix compatibility concerns, conduct a jar test of the proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

Suggested Use Rates Ground and Air Application

Volume / acre.....	Fluid oz. / 100 gallons
Above 50 GPA.....	8 to 16
10 to 50 GPA.....	16 to 24
Below 10 GPA.....	24 to 32

Rinse tank, pump, lines and nozzles with water immediately after spraying. Observe the pre-harvest interval on the pesticide label when using TACTIC. No time limitations apply to non-food crops.

STORAGE AND DISPOSAL

STORAGE: Store in original container only, protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Do not reuse container.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.
