

Precautionary Statements

Wash thoroughly after handling. Wear protective gloves and eye/face protection.

Use Precautions

The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. Care should be exercised when using on new varieties or crops not previously treated with ProCentric.

NOT FOR AQUATIC USE

NET CONTENTS
 2.5 Gallons (9.46 Liters)
 2 X 2.5 Gallons (18.93 Liters)

ProCentric

**DEPOSITION/DRIFT REDUCTION AGENT,
 NONIONIC SURFACTANT,
 PENETRANT**

PRINCIPLE FUNCTIONING AGENTS

Polyoxyethylene sorbitan fatty acid ester,
 soybean oil ethoxylate,
 copolymer of alpha- and beta-pinene.....100.0%
 TOTAL.....100.0%
 Surfactant Content...35.0%

All ingredients are exempt from the requirements
 of a tolerance under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
 WARNING**

HAZARD STATEMENTS
 Causes serious eye irritation.

Manufactured for IAP

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

GENERAL INFORMATION

ProCentric is a proprietary drift and deposition management adjuvant that contains innovative technology for use with air assist and conventional type spray nozzles.

ProCentric suppresses off-target drift by providing a more uniform spray pattern and velocity of the spray droplets.

Many factors affect off target drift such as boom height, nozzle configuration/type, spray pressure, temperature, wind and thermal inversion.

ProCentric will not eliminate all drift.

The surfactant ingredient in **ProCentric** maximizes spray application performance by improving spray coverage and through enhanced retention and penetration of the targeted leaf surface.

ProCentric is effective with herbicides, desiccants, insecticides, fungicides, and plant growth regulators.

Always read and follow label instructions of the crop control tank mix partners used with **ProCentric**.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Keep this container tightly closed. Store above 25° F. Store in original container. Store in a closed container. Store in a dry place. Store in a well-ventilated space. Keep cool. Do not allow water or other chemicals to be introduced into contents of container. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Do not contaminate water sources with equipment washwater; spray disposal wastes or by cleaning of equipment. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents and container in accordance with local and national regulations.

GROUND/AERIAL USE RATES

Always read and follow label instructions of accompanying pesticide product.

Recommended Rate For Herbicides*: 2 to 3 ounces per acre in 5 to 25 gallons per acre spray rate.

Recommended Rate For Fungicides & Insecticides*: 2 ounces per acre in 5 to 25 gallons per acre spray rate. **Do not exceed 2 quarts of ProCentric per 100 gallons.*

Direct Injection Rates For Herbicides: 2 to 3 ounces per acre in 5 to 25 gallons per acre spray rate.

Direct Injection Rates For Fungicides & Insecticides: 2 ounces per acre in 5 to 25 gallons per acre spray rate.

For Direct Injection

ProCentric can be applied through injection systems when added to one of the system's chemical injection tanks. An in-line mixing chamber is recommended.

- First, add **ProCentric** to the chemical injection tank;
- Second, pump the correct amount of **ProCentric** into the line;
- Third, pump the proper amount of water, pesticide, fertilizer and other adjuvants into the line, for mixing with **ProCentric** and chemicals, before going into the spray boom.

MIXING

Add **ProCentric** after pesticides or other adjuvants are introduced to spray mixture but prior to completing the filling of the spray tank. Before making large scale applications, conduct a jar test containing all ingredients to confirm compatibility.

EMERGENCY ASSISTANCE

For emergency assistance, call CHEMTREC at 800-424-9300.

ProCentric contains Quantum Technology, an innovative adjuvant technology that assists with active ingredient uptake and translocation.

NOTICE-READ CAREFULLY

CONDITIONS OF SALE AND WARRANTY

Integrated Agribusiness Professionals (IAP) warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purpose stated on such label only when used in accordance with the directions for use. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of IAP. In no case shall IAP be liable for the consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

Except as expressly provided herein, IAP makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage.
