

TANK CLEANER

Seed Care Inc.

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of surfactants and sequestering agents..... 100%
All ingredients are exempt from tolerance under 40 CFR 180.

DO NOT FREEZE

KEEP OUT OF REACH OF CHILDREN DANGER

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Causes severe skin burns and eye damage. May cause respiratory irritation. Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Do not breathe fume, gas, mist, vapors or spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves, protective clothing, eye protection or face protection.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN (hair) OR CLOTHING: Remove immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Rinse mouth. Do NOT INDUCE VOMITING. Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

TANK CLEANER is a high pH tank and equipment cleaner that penetrates and solubilizes residue from sprayer tank walls, hoses, screens and nozzles.

Recommended for equipment used to apply active ingredients registered for agricultural, aquatic, IVM, and turf applications.

DIRECTIONS FOR USE

Follow the manufacturer's warranty requirements for cleaning and maintaining spray application equipment.

Refer to the active ingredient label for specific equipment preparation and cleaning recommendations.

Rinse water should be collected and contained according to all local, state

and federal regulations.

Large Volume Sprayers: TANK CLEANER is effective at dilution rates up to 1:400. One quart of TANK CLEANER will treat up to 100 gallons of water.

Adjust the dilution rate as needed for individual conditions. Each cleaning situation will vary and adjustments may be necessary.

Circulate TANK CLEANER treated solution through the spray system for 15-20 minutes. Use a high pressure sprayer or hose to rinse all interior areas and spray tank walls. Purge hoses, spray lines, and nozzles. After cleaning, drain system and triple rinse all tank and spray areas.

Handheld and Backpack Sprayers: Use approximately one ounce of TANK CLEANER per gallon of water, agitate thoroughly, drain and follow with triple rinse.

SPECIAL PRECAUTION/RINSE TESTING: The use of TANK CLEANER or other tank cleaners does not guarantee removal and neutralization of all residues. Some pesticides can be slow to release from equipment surfaces, and soaking for 12-24 hours may be necessary. Many variables exist which make consistent tank cleaning difficult (i.e. water quality, use of cleaning equipment, quantity and type of residue, age and condition of spray tank, spray lines, nozzles etc.).

EFFECTIVE EQUIPMENT CLEANOUT IS THE RESPONSIBILITY OF THE APPLICATOR.

In order to ensure that all residues have been removed, apply a sample of the rinse water to sensitive plants (tomato, cotton, ornamentals, etc.) and after sufficient time, observe for wilting or severe stress. If stress occurs, repeat cleaning process and retest as above.

STORAGE AND DISPOSAL

Storage: Store locked up. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. STORE BETWEEN 40° AND 90° F.

Disposal: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations.

For Emergency, Spill, Leak, Fire, Exposure, or Accident,

Call CHEMTREC 1-800-424-9300.

NOTICE OF WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible incidental or consequential damages, if any resulting from a breach of warranty.
