RECOMMENDATIONS

ULTRA GRO K – PLUS is recommended for foliar use. Apply 2 to 4 quarts per acre with sufficient water for thorough coverage. For best results, Do not spray when temperatures exceed 92°F.

Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops.

Soil Applications: maybe made through drip irrigation, sprinkler systems or ground applied with other fertilizer solutions

Foliar Applications: ULTRA GRO K – PLUS is a concentrated solution and should be diluted with water before use to ensure uniform coverage.

Aerial Applications: Apply ULTRA GRO K – PLUS with at least 10 gallons of water per acre.

SUGGESTED APPLICATION RATES:

Trees and Vines Crops Including:

Almond, apple, apricot, avocado, Blueberry, cherry, citrus, grape, olive, pear, peach, pistachio, plum, pomegranate, walnut, etc.

ULTRA GRO K – PLUS is compatible with many fertilizers and pesticides Do not apply KDL in combination with citrus or petroleum oils. Do not apply KDL with copper-based fungicides.
