EPA Reg. No. 62719-695

EPA SLN No. TX-230001

For Distribution and Use Only in the State of Texas

**This label is valid until December 31, 2028 or until otherwise amended, withdrawn, canceled, or suspended.
Texas County Restriction Clarification**

Read and understand the Special Conditions and Risks of Use section on this label before using this product in accordance with this FIFRA Section 24(c) Special Local Need.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This SLN label and the federal label for this product must be in the possession of the user at the time of pesticide application.
- Read this SLN and the label affixed to the container for Enlist One™ herbicide before applying.
- Use of Enlist One herbicide according to this SLN is subject to all use directions, precautions and limitations imposed by the label affixed to the container for Enlist One herbicide.

Enlist One™ herbicide is a systemic herbicide that is intended for control of emerged annual and perennial weeds. Enlist One is designed to be applied to cotton grown for seed, corn, and cotton field crops containing Enlist™ traits.

Enlist One may be used according to package label in the following counties in Texas: Cameron, Hidalgo, San Patricio, Nueces, and Willacy. Use is permitted only in accordance with the Use Restrictions of this SLN.

Use Restrictions: Do not use Enlist One in Bell, Hill, McLennan, or Williamson Counties.

Precaution: Non-Enlist Cotton and melons are highly sensitive to this product. Applicators must use great caution to ensure drift does not occur downwind to either of these crops.

THREATENED AND ENDANGERED SPECIES

Special local needs (SLN) labels are important to states like Texas with niche industries and significant economic risks due to local pest problems. Our stewardship of this important labeling process is important and must also consider the potential off-target effects of any pesticide used in Texas. This includes any potential harm to threatened or endangered (TE) species in our state. Please carefully consider the use of this pesticide and obtain as much information as you can to help ensure your application will have no impacts on TE species.
