

For prevention or correction of nutrient deficiencies - Glyphosate compatible

GUARANTEED ANALYSIS

Total Nitrogen (N).....	6.00%
6.00% Urea Nitrogen (N).....	
Sulfur (S).....	3.00%
3.00% Combined Sulfur (S).....	
Boron (B).....	0.25%
Copper (Cu).....	0.25%
0.25% Chelated Copper (Cu).....	
Manganese (Mn).....	3.00%
3.00% Chelated Manganese (Mn).....	
Zinc (Zn).....	3.00%
3.00% Chelated Zinc (Zn).....	

Derived from: Urea, Sodium Borate, Copper Citrate, Manganese Ethylenediaminetetraacetic Acid, Manganese Sulfate, Zinc Citrate

RECOMMENDED RATES

The optimum rate and timing of application will depend on local conditions and should always be made as a result of soil and/or plant tissue analysis in consultation with your local agricultural authorities. In the absence of test results, use the following as a guide:

Application Method	Rate
Broadcast Foliar	1-2 qts./Ac. Manganese does not translocate to new growth. Accordingly, a second application may be necessary

Repeat as necessary if deficiency persists. Use sufficient water for thorough coverage. Ground: 10-20 gal water/Ac. Air: 3-5 gal water/Ac. If less water is used, slight burn can occur. Spray either early or later in the day for maximum absorption.

F1252

Net Weight

Jug: 26.5 Lb (12.02 Kg)
Cs 2x2.5: 53 Lb (24.04 Kg)
MBT: 2650 Lb (1202.02 Kg)

Information about the components of this fertilizer material may be obtained by writing to CNI AgriMinerals P.O. Box 3706 Albany, GA 31706, and giving the lot number which is found on the container.

GENERAL INFORMATION

CNI MANDATE EXTRA is ammonia free and specifically formulated to achieve compatibility with glyphosate and other selective and non-selective herbicides. A proprietary blend of compatibility and chelating agents preserves the efficacy of the herbicides while maintaining the availability of the manganese. **CNI MANDATE EXTRA** is recommended for foliar applications on soybeans, peanuts, cotton, corn and most other crops. It supplies manganese, boron, copper, zinc, and sulfur providing supplemental nutrition at or near the time it is needed most. **CNI MANDATE EXTRA** is environmentally safe, made with only "clean" raw materials, free from heavy metal contamination.

CNI MANDATE EXTRA can be tank mixed with most pesticides. Always make a small-scale test to assure compatibility. It can be soil or foliar applied, broadcast or banded over the row and injected through irrigation systems.

CNI MANDATE EXTRA will disperse in water with minimal agitation. Follow the mixing sequence: 1. Water, 2. **CNI MANDATE EXTRA**, 3. Glyphosate and/or other pesticides

WARNING - Some crops may be injured by the application of Boron

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin and clothing. Avoid breathing spray mist.

READ LABEL - FOLLOW DIRECTIONS! Refer to SDS for health, safety and environmental information.

KEEP OUT OF REACH OF CHILDREN

WHAT TO DO IN CASE OF CONTACT

Eye: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation persists.

Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation develops. **Inhalation:** Move to fresh air. Obtain medical attention if irritation develops. **Ingestion:** Drink large volumes of water. Call a physician or poison control center. Indication of Immediate Medical Attention and Special Treatment Needed: **In the event of an adverse response, treatment should be directed toward control of the symptoms and the clinical condition of the patient.**
