

FIFRA

Section 2(ee) Recommendation

Date: March 5, 2020

Product: Platinum® 75SG Insecticide
EPA Reg. No. 100-1291

Use: Addition of wireworm damage suppression in sweet potato

State: NC

Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

Platinum 75SG applied at 2.67 oz/acre will aid in the suppression of damage caused by wireworm species in sweet potato.

Application Method: Apply using one of the following methods:

1. Pre-plant incorporated: Apply to the soil and incorporate prior to or during formation of the beds.
2. Apply as an in-furrow spray or transplant water drench during the transplanting operation.
3. After transplanting, apply as a directed spray to the soil following bedding, during first cultivation, or at layby operation by incorporating with cultivation.
