ENDURANCE™ 15-2-15

GENERAL INFORMATION

Endurance 15-2-15 is a liquid fertilizer containing soluble, readily available potassium and a balanced blend at 50% readily available and 50% slow release nitrogen. This one -to -one ratio of nitrogen and potassium is important when turf grass cannot use high levels of phosphorus. **Endurance 15-2-15** does not contain chlorides that can cause salt build-up.

APPLICATION RECOMMENDATIONS

Endurance 15-2-15 can be used on warm season, cool season, and transitional grasses such as: Bermuda, Bent, Kentucky Blue, Centipede, Perennial Rye, St. Augustine, Bahia, and Zoysia. It is suitable for use on tees and greens, fairways, roughs, sports turf & soil and lawns.

BENEFITS OF USING ENDURANCE 15-2-15

- No chlorides
- Improves winter hardiness
- Broad compatibility
- No special mixing
- Clear solution
