KEEP OUT OF REACH OF CHILDREN
DANGER / PELIGRO. CORROSIVO.

Si usted no entiende la etiqueta, busque a alguien par a que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS

May be corrosive to metals. Harmful if swallowed. Causes severe skin burns and serious eye damage. If medical advice is needed, have product container or label at hand. Read label before use. Keep only in original packaging. Do not breathe mist or spray. Wash protective equipment and work clothes thoroughly after handling. Do not eat, drink or smoke when using this product. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS. Store locked up. Store in a corrosion resistant container with a resistant inner liner. Dispose of contents/container to disposal plant in accordance with federal, state and local regulations.

This product is not corrosive to most sprayer tanks and equipment; however, it will remove large amounts of scale and rust that could plug screens and nozzles or expose hidden leaks. Do not use **OutRight** on nonferrous metals, such as soft aluminum, copper and brass.

Due to existing variables in equipment and component type, construction age and cleanout technique, the use of **OutRight** does not guarantee removal or neutralization of all residues. Therefore, thorough sprayer cleanout is the responsibility of the applicator. Always conduct a test to verify acceptable residue removal.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this chemical should wear coveralls, long-sleeved shirt, protective apron, boots, chemically impervious gloves, splash-proof chemical safety goggles and full face shield. Consult the SDS for further information.

FIRST AID

If Swallowed: Call a POISON CENTER/doctor or Chemtrec if person feels unwell. **Do not induce vomiting.** Rinse mouth. Drink egg whites, gelatin solution, or, if these are not available, large quantities of water. Avoid alcohol.

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor or Chemtrec.

If On Skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. Wash with plenty of water for 15 minutes. If skin irritation occurs: Get medical advice or attention. Treat Symptomatically. Wash contaminated clothing before reuse.

If Inhaled: Remove person to fresh air and keep comfortable for breathing.

GENERAL INFORMATION

OutRight is a liquid spray system detergent and cleaner that exceeds the capabilities of other tank detergents, soaps, and ammonia. **OutRight** will elevate pH, break down oily and solid residues in the tank, sprayer lines and hoses, and remove them from the system when used in conjunction with proper cleaning technique. Use of **OutRight** along with proper cleaning technique will result in more thorough clean-outs and reduced risk of cross contamination. Rinsate solutions containing **OutRight** may be disposed of on growing crops.

OutRight is a trademark of Chem Nut Inc.

DuPont is a registered trademark of E.I. du Pont de Nemours and Company.

DIRECTIONS FOR USE

After cleaning procedures have been completed, fill tank with clean water and conduct a rinsate test on the water in the tank. Rinsate tests can be done through laboratory analysis or bioassay. For bioassay testing, apply rinsate to sensitive vegetation and observe treated plant for at least 48 hours. If damage occurs, repeat cleaning process and testing procedures. If no damage is observed, dispose of rinsate in an appropriate manner and resume spraying operations. Do not use the sprayer during the 48-hour observation period. All internal and external rinsate must be contained and disposed of according to state, local and federal regulations.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, AQUATIC, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, ORNAMENTAL RIGHTS-OF-WAY, TURF, AND OTHER APPROPRIATE USES.

USE RATES

Use 1 - 4 quarts per 100 gallons of clean water.

MIXING

1. Clean all tanks on a state-approved loading pad so rinsate can be collected and mixed into spray solution or into a dedicated rinsate tank. In-field cleanout, go to step 3.
2. Thoroughly clean exterior of tank to remove dirt and chemical residue.
3. Drain the spray tank as completely as possible. Loosen any visible deposits.
4. Add 50-100 gallons of clean water to the tank and add appropriate amount of **OutRight**.
5. Remove nozzles, screen and strainers and thoroughly clean separately in a bucket, using **OutRight** as the cleaning agent. Rinse with clean water.
6. Ensure agitation and carefully clean the interior of the tank using a 360° rotation nozzle or pressure sprayer. Agitate and circulate for 15 minutes.
7. Flush the cleaning solution through the boom, hoses and nozzles until tank is empty.
8. Drain lines and pump. Dispose of rinsate according to product label and local, state and federal regulations.
9. Add 50-100 gallons of clean water to the tank. Recirculate through entire system. Flush solution through the boom, hoses and nozzles until tank is empty.
10. Drain the tank, lines and pump completely. Remove excess rinsate with a pump or dedicated wet/dry vacuum.
11. Test rinse solution for pesticide residue. If residue free, dispose of according to local, state and federal regulations. If not, repeat step 8 above.

STORAGE AND DISPOSAL

Noncombustible. Store in original container only. Protect product from freezing. Prevent water from being introduced into the contents of this package. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE

Seller warrants that this material conforms to its chemical description and is reasonable fit for the purposes stated on the label when used in accordance with direction under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty included and other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
